USOAP CMA 2024 Protocol Questions
Airworthiness of aircraft — AIR

Explanatory Note on the 2024 Edition of the Protocol Questions (PQs):

Revised on the basis of the 2020 edition, this 2024 edition of the USOAP CMA Protocol Questions (PQs) follows the High-level Conference on COVID-19 (HLCC 2021) Recommendations (C-WP/15312 refers) regarding the integration of State Safety Programme Implementation Assessment (SSPIA) with traditional Universal Safety Oversight Audit Programme (USOAP) Continuous Monitoring Approach (CMA) activities that were approved by the Council of ICAO on 4 March 2022 (C-DEC 225/7 refers). Some notable features of this 2024 edition of PQs are the addition of Safety Management System (SMS) related PQs to the areas of personnel licensing and training (PEL), aircraft operations (OPS), airworthiness of aircraft (AIR), air navigation services (ANS), and aerodromes and ground aids (AGA), as well as the addition of a set of new PQs on State Safety Programme (SSP) as a new audit area.

The newly added PQs on SSP and SMS will have an undetermined status thus will not affect the Effective Implementation (EI) scores, until they are audited. Dedicated EI score for SSP will be provided separately. Once States and relevant regional organizations are migrated to the 2024 PQ edition, the EI scores for the USOAP activities on safety oversight, as indicated on the USOAP CMA online framework, will be updated and adjusted accordingly.

The existing SSPIA PQs, including the self-assessments submitted and the assessment results for those States which had received SSPIAs, will be archived and can be made available upon request.

Introduction to the ICAO USOAP CMA Protocol Questions

Protocol Questions (PQs) are the primary tool used in the ICAO Universal Safety Oversight Audit Programme (USOAP) Continuous Monitoring Approach (CMA) for assessing the effective implementation of the eight critical elements (CEs) of a State's safety oversight system. Developed based on ICAO Standards and Recommended Practices (SARPs), Procedures for Air Navigation Services (PANS) and ICAO guidance material, the PQs are revised periodically by ICAO to reflect amendments to the ICAO provisions and reference documents.

The PQs are organized by audit areas and each PQ is associated with one of the eight CEs.

The nine audit areas are as follows:

1) Primary aviation legislation and specific operating regulations (LEG);
2) Civil aviation organization (ORG);
3) Personnel licensing and training (PEL);
4) Aircraft operations (OPS);
5) Airworthiness of aircraft (AIR);
6) Aircraft accident and incident investigation (AIG);
7) Air navigation services (ANS);
8) Aerodromes and ground aids (AGA); and
9) State Safety Programme (SSP).

The eight CEs are as follows:

CE-1. Primary aviation legislation
CE-2. Specific operating regulations
CE-3. State system and functions
CE-4. Qualified technical personnel
CE-5. Technical guidance, tools and provision of safety-critical information
CE-6. Licensing, certification, authorization and approval obligations
CE-7. Surveillance obligations
CE-8. Resolution of safety issues

States are expected to use the PQs to conduct regular self-assessments and in this way, monitor the health of their aviation safety oversight system in a proactive manner.

A State is deemed to have *fully addressed* a PQ when it has implemented all the required elements of the PQ. This generates a *"satisfactory"* status of implementation for the PQ. If the State provides insufficient or no evidence of compliance with the elements outlined in the PQ, the PQ is assessed as *"not satisfactory"*. The State is required to develop and implement a corrective action plan (CAP) which fully addresses the associated PQ and all identified deficiencies.

The status of each PQ for a State is reflected in the USOAP CMA Online Framework (https://www.icao.int/usoap) and summarized in the activity report.

For reference purposes, the PQs are hereby presented in a table format. Each PQ is assigned a PQ number (e.g. 1.001), associated with a CE (e.g. CE-1), and supplemented by the relevant "Guidance for Review of Evidence" and "ICAO References". PQs shown in shaded rows can be assessed only in a USOAP CMA on-site activity, while Priority PQs are indicated as such (with "Yes" note) under the "PPQ" column.

For each PQ, the corresponding "Guidance for Review of Evidence" provides *an itemized list of elements* to be implemented by the State in order to address the PQ *satisfactorily*. When preparing for a USOAP CMA audit, States should use these listed elements, as applicable, to prepare the necessary supporting documentation and evidence for all PQs within the scope of the audit. When preparing for an ICAO validation activity, States should provide the necessary supporting documentation and evidence for all PQs, within the scope of the validation activity, that were previously assessed as *"not satisfactory"*.

Representatives of a State's civil aviation authority/investigation authority who participate in USOAP CMA activities should be familiar with each PQ and the related "Guidance for Review of Evidence" that will be addressed during the activities. All the information and evidence for each PQ that are to be provided to the USOAP CMA activity team should be prepared in advance.

The "Summary of Amendments" table provides a list of new, revised, merged and deleted PQs and a brief description of the amendments.

For the 2024 edition of the PQs, the total number of PQs is 851 and a breakdown for each area is shown below:

	Area	Number of 2024 PQs
1	LEG	23
2	ORG	13
3	PEL	100
4	OPS	136
5	AIR	198
6	AIG	84
7	ANS	128
8	AGA	153
9	SSP	16
TOTAL NUMBER		***851***

General Guidelines for All Areas

Legislation, Primary Aviation Legislation and Specific Operating Regulations

The term "legislation" in the USOAP CMA Protocol Questions is used as a generic term to include primary aviation legislation and specific operating regulations.

The term "primary aviation legislation" in the USOAP CMA Protocol Questions includes any legislative provision and/or instrument promulgated and enforceable in the State (e.g. laws, acts, codes and international treaties).

The term "specific operating regulations" in the USOAP CMA Protocol Questions includes any binding regulatory provisions and/or instruments in the State (e.g. regulations, decrees, rules, and orders).

Processes and Procedures

Processes and procedures should clarify *who does what, how, when* (or *within what timeframes*) and *in coordination with whom*, as applicable.

Delegation of Duties and Tasks

When a State has delegated some of its safety oversight duties and tasks to another State or organization, the PQs on the delegation may have to be evaluated with the entity to which the duties and tasks have been delegated.

The State remains responsible for ensuring that the delegated duties and tasks are performed, at all times, by qualified individuals who ensure the implementation of the applicable legislation as well as the established processes and procedures. There should also be a system in place for conducting surveillance of the delegated duties and tasks and a process for the resolution of identified safety deficiencies.

Regulatory Function versus Service Provider Function

For a State which has not established a clear separation between its regulatory function and its service provider function or where the State Civil Aviation Authority (CAA) is both the regulator *AND* the service provider, the related PQs remain applicable.

Industry Visits

Industry visits are conducted to review and verify that the implementation of the established requirements, procedures and safe practices in each area complies with ICAO provisions and the State's applicable national legislation.

On-Site Activity

PQs that can only be assessed in a USOAP CMA on-site activity are shown in shaded rows in the PQ table.

Priority Protocol Questions (PPQs)

A subset of PQs is classified as Priority PQs or PPQs, which, if found not satisfactory, may indicate a lack of capability by a State to identify and/or resolve operational safety and fundamental accident investigation deficiencies effectively.

Annex

The term "Annex" in the USOAP CMA Protocol Questions stands for Annex to the Chicago Convention.

ICAO References

The ICAO references are classified as follows (shown here in alphabetical order): Chicago Convention (CC), ICAO Circular (Cir), ICAO Guidance Material (GM), Procedures for Air Navigation Services (PANS), Recommended Practice (RP), Regional Supplementary Procedures (SUPPS), and Standard (STD).

— — — — — — — —

Specific Guidelines for AIR

The AIR PQs are based primarily on the Chicago Convention, Annexes 6, 7, 8 and 16 to the Chicago Convention as well as associated ICAO guidance material.

The PQs on the *legislation and regulations for the airworthiness of aircraft* (covering PQs 5.001 to 5.013) are *applicable* to all States.

The PQs on "*Airworthiness Inspection"* (covering PQs 5.021 to 5.453 and 5.901 to 5.941) are used to assess and evaluate a State's safety oversight system with regard to the airworthiness functions and responsibilities of a State of Registry or a State of the Operator, which should have established an airworthiness inspection division (AID), as described in Doc 9760 — *Airworthiness Manual*. If no airworthiness engineering division (AED) has been established, it is essential to identify any engineering tasks being carried out by the State and to assess and determine if the State has acquired the competency to perform these tasks. If the State has delegated inspection or engineering tasks, the specific PQs related to the delegated tasks may have to be evaluated with the delegated entity or individual.

The PQs on "*Design Certification and Production"* (covering PQs 5.461 to 5.685 and 5.951 to 5.991) are used to assess and evaluate a State's safety oversight system with regard to the functions and responsibilities of an AED, as described in Doc 9760. These PQs are *applicable* only to States which:

a) perform type certification as the State of Design, and/or
b) issue production certificates or production organization approvals, and/or
c) allow production in the absence of a production certificate or production organization approval.

Acronyms and Abbreviations

A = Annex to the Chicago Convention
ACAS = Airborne Collision Avoidance System
AD = Airworthiness Directives
AED = Airworthiness Engineering Division
AFM = Aircraft Flight Manual
AID = Airworthiness Inspection Division
AIR = Airworthiness of Aircraft
Amdt. = Amendment
AMO = Approved Maintenance Organization
AOC = Air Operator Certificate
App. = Appendix
Att. = Attachment to an ICAO document
C = Chapter
CAA = Civil Aviation Authority
CAME = Continuing Airworthiness Management Exposition
CAT = Category
CC = Chicago Convention
CE = Critical Element
CMA = Continuous Monitoring Approach
CVR = Cockpit Voice Recorder
Doc = ICAO Document or Manual
EASA = European Union Aviation Safety Agency
EDTO = Extended Diversion Time Operations
ELT = Emergency Locator Transmitter
ETOPS = Extended Range Operations by Aeroplanes with Two Turbine Engine
FAA = Federal Aviation Administration (United States)
FDR = Flight Data Recorder
GM = ICAO Guidance Material
GPWS = Ground Proximity Warning System
MEL = Minimum Equipment List
MMEL = Master Minimum Equipment List
MRB = Maintenance Review Board
NDT = Non-Destructive Testing
OJT = On-the-job Training
OPS = Aircraft Operations
PPQ = Priority Protocol Question
PQ = Protocol Question
RNP = Required Navigation Performance
RP = Recommended Practice
RVSM = Reduced Vertical Separation Minima
SARPs = Standards and Recommended Practices
STC = Supplemental Type Certificate
STD = International Standard contained in an Annex to the Chicago Convention
TC = Type Certificate
USOAP = Universal Safety Oversight Audit Programme
VFR = Visual Flight Rules

SUMMARY OF AMENDMENTS – AIR PQs

Note 1.— The PQs are listed here sequentially for convenience. This may differ from their order on the USOAP CMA Online Framework or in the following document.
Note 2.— The PQs in the shaded rows require a USOAP CMA on-site activity. For the remaining PQs, no on-site activity is required in most cases.

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
5.001	Has the State promulgated specific operating regulations to transpose the airworthiness-related provisions of Annexes 6 (Parts I, II and III), 7, 8 and 16 (Volumes I, II and III)?	1) Confirm the title, date of promulgation and latest amendment of all regulations related to airworthiness. 2) Verify that the content of the regulations is consistent, sufficient and properly organized. 3) Confirm the transposition of the airworthiness-related provisions of: Annex 6, Part I Annex 6, Part II Annex 6, Part III Annex 7 Annex 8 Annex 16, Volume I Annex 16, Volume II Annex 16, Volume III	CC Art. 12 STD A19 3.2.2.1 GM Doc 9734 Part A, C2 & C3 Doc 9760 Part II, 3.2	Yes	CE-2
5.003	Has the State promulgated a national code of airworthiness, or adopted and promulgated the code of airworthiness from another State, or specified in its regulations the type certificates/related airworthiness codes from identified States of Design as basis for acceptance?	Review: 1) national code of airworthiness; 2) adopted code of airworthiness from another State; or 3) regulations specifying type certificates/related airworthiness codes from identified States of Design as basis for acceptance.	STD A8 Foreword & Part I (Definitions) GM Doc 9760 Part II, 1.1.5 & 1.1.7	Yes	CE-2
5.005	Has the State implemented procedures for the amendment of its enabling airworthiness regulations and national standards?	1) Review documented evidence of effective implementation of procedures for the amendment of airworthiness regulations. 2) Verify that airworthiness regulations are amended in a timely manner	CC Art. 37 STD A19 3.2.2.2 GM		CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		whenever amendments to Annexes 6 (Parts I, II, and III), 7, 8 and 16 (Volumes I, II and III) are received. 3) Verify the action taken by the State after receipt of the last amendments. Note to the auditor: The development of these procedures is addressed in LEG PQ 1.009.	Doc 9734 Part A, C3		
5.007	Has the State implemented procedures for identifying and notifying differences, if any, to ICAO?	1) Review documented evidence of effective implementation. 2) Confirm that: a) differences between SARPs and the State legislation and practices are identified and notified to ICAO using the Compliance Checklist/Electronic Filing of Differences (CC/EFOD) system; and b) significant differences between SARPs/PANS/SUPPS and the State regulations and practices are identified and published in the AIP. Notes to the auditor: 1) The development of these procedures is addressed in LEG PQ 1.025. 2) States may also notify differences to ICAO using other means.	CC Arts. 37 & 38 STD A15 5.2.2 GM Doc 9734 Part A, C3 Doc 8126 Part III, C2 Doc 10055 PANS Doc 10066 (AIM) App. 2	Yes	CE-2
5.013	If the State has granted exemptions to airworthiness regulations, has the State implemented procedures for the granting of exemptions?	Verify: a) effective implementation of procedures; b) system for recording and publishing exemptions granted; c) examples of exemptions granted in the area of airworthiness; and d) criteria used for the risk assessment	GM Doc 9734 Part A, C3 Doc 9760 Part II, 3.1.6		CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		before granting the exemption. Notes to the auditor: 1) The legal/regulatory basis for the granting of exemptions is addressed in LEG PQ 1.027. 2) The establishment of a policy and procedures for the granting of exemptions is addressed in LEG PQ 1.028. 3) The term "exemptions" also includes exceptions, deviations, variations and prolonged extensions.			
5.021	Has the State established an organizational structure for the airworthiness inspection division (AID)?	Confirm current approved organizational structure for AID, including lines of responsibility. Note to the auditor: This PQ is not linked to ORG PQ 2.010.	STD A6 Part I, App. 5, 3.1 Part III, App. 1, 3.1 A19 App. 1, 3.1 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.7.1		CE-3
5.023	Are all the functions and responsibilities of the AID clearly defined?	Review document detailing functions and responsibilities of the AID. Note to the auditor: This PQ is not linked to ORG PQ 2.011.	STD A6 Part I, App. 5, 3.1 Part III, App. 1, 3.1 A19 App. 1, 3.1 GM Doc 9760 Part II, 4.7		CE-3
5.027	Have job descriptions been developed for technical staff and key management personnel of the	Verify job descriptions for AID staff, including: 1) aircraft register staff; and	GM Doc 9734 Part A, C3		CE-3

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	AID?	2) airworthiness inspectors.	Doc 9760 Part II, 4.7		
5.029	If the State is involved in the provision of aircraft operations or maintenance of aircraft, is there a clear separation of authority between the State operating agency and the State regulatory authority?	1) Verify separation provisions. 2) Review documented evidence of the method used to ensure separation of authority.	GM Doc 9734 Part A, C2, 2.3.4 Doc 9760 Part II, 1.1.9		CE-3
5.031	Has the State established appropriate minimum qualifications and experience requirements for airworthiness inspectors?	Verify that criteria include: 1) relevant knowledge, background and appropriate experience related to aircraft continuing airworthiness management; 2) aeronautical licences, certificates or academic degrees commensurate with their job responsibilities; and 3) operational and technical work experience compatible with the activities they are required to certify or inspect.	STD A19 App. 1, 4.1 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.5.1, 4.5.3, 4.5.4 & 4.5.5.1	Yes	CE-4
5.032	Does the State ensure that the established minimum qualification and experience requirements are met by all airworthiness inspectors?	1) Sample recruitment files. 2) Cross-check with established requirements.	STD A19 App. 1, 4.1 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.5.1, 4.5.3 & 4.5.4	Yes	CE-4
5.033	Does the AID have sufficient human resources to carry out its functions and mandate?	Verify: 1) methodology established for determining staffing needs; 2) ability to: a) attract new airworthiness inspectors; b) fill existing vacancies; and c) reduce level of turnover in past years; 3) ability to carry out all safety oversight	STD A6 Part I, App. 5, 3.2 Part III, App. 1, 3.2 A19 App. 1, 3.1 RP A19	Yes	CE-3

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		related tasks, including review and revision of regulations, training of technical staff, development of guidance material, issuance of certificates, approvals, and permits, conduct of surveillance and resolution of identified safety deficiencies.	App. 1, 3.3 & 3.5 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.5.1		
5.035	Have airworthiness inspectors been issued credentials to facilitate access to aircraft and aviation facilities for the purpose of inspections?	Review credentials to ensure: 1) reference to empowering legislation; 2) method established to control currency of credential; and 3) inspector's photo.	STD A6 Part I, App. 5, 1 & 3.4 Part III, App. 1, 1 & 3.4 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.5.7		CE-3
5.037	If the AID delegates its duties to other CAA divisions, State bodies, Contracting States, regional organizations, private agencies or individuals, have requirements for competency been established?	1) Review competency requirements for delegated entities. 2) Review minimum qualifications and experience requirements for individuals receiving delegation.	GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.1 & 4.7.3 j)		CE-4
5.039	If the AID delegates its duties to other CAA divisions, State bodies, Contracting States, regional organizations, private agencies or individuals, are the delegated tasks clearly defined?	1) Review documentation clearly defining the delegated tasks. 2) Verify the legal mechanism for delegation.	GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.1		CE-3
5.041	Does the AID conduct surveillance of tasks delegated to other CAA divisions, State bodies, Contracting States, regional organizations, private agencies or individuals?	1) Review mechanism for oversight. 2) Review evidence to confirm effective implementation. 3) Maintenance of competency.	STD A19, App. 1, 7 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.1 & 4.4		CE-7

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
5.043	If deficiencies or concerns are identified in the tasks delegated to other CAA divisions, State bodies, Contracting States, regional organizations, private agencies or individuals, does the AID have a process in place for their resolution?	Review examples of corrective actions taken to resolve concerns related to delegated tasks.	STD A6 Part I, App. 5, 5.2 & 8 Part III, App. 1, 5.2 & 8 A19 App. 1, 8 GM Doc 9734 Part A, C3		CE-8
5.045	If no AED has been established, and the State approves/accepts airworthiness engineering data (modifications, repairs), how and to whom has the airworthiness engineering responsibility been assigned?	Review organization for capability to address engineering responsibilities, if required. This PQ is not linked to ORG PQ 2.011.	GM Doc 9760 Part II, 4.7.1.2, 4.7.2 k), 4.7.3 e) & f)		CE-3
5.047	Has the AID developed a formal training programme detailing the type of training to be provided to airworthiness inspectors?	1) Review contents of training programme. 2) Confirm inclusion of initial, OJT, recurrent and specialized training, as applicable, with time periods to be provided. 3) Verify specialized training for: a) air operator certification; b) reliability monitoring; c) non-destructive testing; d) avionics; e) human factors; f) specific operational approvals (i.e. EDTO, RVSM, CAT II/III, RNP); g) aircraft type knowledge; h) ramp inspection methods; i) safety management systems; j) auditing techniques; k) quality systems.	STD A6 Part I, App. 5, 4 Part III, App. 1, 4 A19 App. 1, 4.1 GM Doc 8335 C6, 6.3 Doc 9683 Part 1, C6 Doc 9734 Part A, C3 Doc 9760 Part II, 4.5.5 & 4.5.6 Doc 9824 5.7		CE-4

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
5.051	Is the training programme appropriately implemented for airworthiness inspectors?	1) Verify if periodic training plans detailing the types of training to be provided during established period have been developed by the AID. 2) Verify that the type and frequency of training provided (initial, recurrent, specialized and OJT) are sufficient for the technical staff to acquire/maintain the required level of knowledge, skills, competence and qualifications in accordance with their assigned duties and responsibilities.	STD A6 Part I, App. 5, 4 Part III, App. 1, 4 A19 App. 1, 4.1 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.5.5 & 4.5.6	Yes	CE-4
5.055	Does the AID have a system for the maintenance of training records for its technical staff?	1) Review instruction or requirement for the establishment and maintenance of training records. 2) Verify training records are systematically retained.	STD A19 App. 1, 4.2 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.5.6		CE-4
5.101	Are the relevant ICAO documents and other technical and regulatory publications readily available to the technical and administrative staff of the AID?	Verify if relevant publications are readily available, such as: 1) current copies of Annexes 6 (Parts I, II and III), 7, 8, 16 (Volumes I, II and III) and 19; 2) current copies of ICAO guidance material (i.e. Doc 9734, Doc 9735, Doc 8335, Doc 9760, Doc 9859, Doc 10059, etc.). Note to the auditor: Check for field/regional offices as well as Headquarters.	GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.9		CE-5
5.105	Do airworthiness inspectors have access to up-to-date airworthiness	Verify accessibility and currency of documents, such as:	STD A8		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	data from the organization responsible for the type design and continuing airworthiness information to support the certificates/approvals issued for the aircraft on the State's register?	1) aircraft flight manual; 2) maintenance manual; 3) structural repair manual; 4) service bulletins; 5) Master minimum equipment list (MMEL); 6) Maintenance review board (MRB) report; and 7) ADs Note to the auditor: Documents may be found in the technical library in hard/electronic copy or available via the Intranet/Internet. If access to documents is dependent on industry, airworthiness inspectors should at least have an index to confirm currency of documents.	Part II, 4.2.3 GM Doc 9760 Part II, 4.9		
5.121	Has the State promulgated regulations for the issuance of a certificate of registration?	1) Verify regulations. 2) Confirm that the regulations dictate the location, measurements and type of the nationality or common and registration marks to be used on heavier than air aircraft registered in the State.	CC Art. 19 STD A7 8 GM Doc 9760 Part III, 2.1 Doc 10142 C2, 2.2.3		CE-2
5.125	Have procedures been developed for the issuance of certificate of registration and for the maintenance of the aircraft register?	1) Verify procedures. 2) Verify that aircraft must be de-registered from previous State first. 3) Confirm removal of 24-bit aircraft address from previous registration.	CC Art. 19 STD A7 7 & 8 A10 Vol. III	Yes	CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
			App. to C9, 5.2 (d) GM Doc 9760 Part III, C2 Doc 9924 App. J, 7.26 Doc 10142 C4, C5, 5.5.5		
5.127	Does the State maintain a current register showing for each aircraft registered the information recorded in the certificate of registration?	1) Review register to confirm effective implementation of procedures. 2) Verify that the aircraft register is kept in a secure, fire-proof location or, if the register is kept electronically, that there are safeguards and backup means in place regarding protection of the electronic file. 3) Verify content by comparing with the certificate of registration shown in Figure 1 of Annex 7.	STD A7 7 & 8 GM Doc 9760 Part III, 2.4 Doc 10142 C4, 4.1.8.3.2, 4.1.8.3.3	Yes	CE-6
5.129	Is the certificate of registration, in wording and arrangement, a replica of the model shown in Annex 7?	1) Review certificate of registration and verify certificate content, including both the wording and the arrangement. 2) If not issued in English, an English translation should be included.	STD A7 8 & Fig. 1 GM Doc 9760 Part III, 2.3.1 Doc 10142 C4, 4.1.8.4.1		CE-6
5.130	Does the State ensure that an aircraft carries an identification plate inscribed with at least its nationality or common mark and registration mark, made of fireproof metal or other fireproof material of suitable physical properties and secured to the	Review method, procedures and/or checklists to ensure effective implementation of the requirement.	STD A7 9.1 & 9.2 GM Doc 10142 C4, 4.1.7.2.1 (b)		CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	aircraft in a prominent position near the main entrance?				
5.143	If the State validates type certificates (TCs), have the associated regulations been promulgated?	1) Verify regulations. 2) Validation implies a technical review and approval issued by a State, which is not the State of Design. Note to the auditor: If the State only accepts TCs issued by certain States of Design, this question is Not Applicable.	STD A8 Part II, 1.4 GM Doc 9760 Part III, 4.3		CE-2
5.145	Have procedures for the validation of type certificates been established?	Verify that procedures include: 1) Review of the differences that exist between State's national airworthiness requirements and those of the State of Design, or on those requirements where the State of Registry retains exclusive approval authority under its certification system. 2) At the completion of the type validation activity, confirm approval or acceptance of the type design by issuing own type certificate, or a letter of approval or acceptance. 3) The certification basis by which the State of Registry grants its type design approval or acceptance should be clearly documented in the type certificate data sheet or in the approval letter. Note to the auditor: A Contracting State is encouraged to give maximum credit and recognition to the type certification already done by the State of Design, and avoid duplicate or redundant testing where practical and without prejudice to	STD A8 Part II, 1.4.2 GM Doc 9760 Part III, 4.3.6 & 4.3.7 Part V, 2.1.4 & 2.1.5		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		its own unique national requirements.			
5.147	Have the procedures for type certificate validation been implemented?	Confirm effective implementation of procedures.	STD A8 Part II, 1.4.2 GM Doc 9760 Part III, 4.3.6 & 4.3.7 Part V, 2.1.4 & 2.1.5		CE-6
5.149	Has the AID developed procedures to ensure that aircraft type design is accepted prior to the issuance of the first certificate of airworthiness for an aircraft type?	Acceptance of aircraft design by: 1) issuance of TC (see AIR protocols Part II: Design certification and production); 2) validation of TC issued by the State of Design; 3) acceptance of TC issued by State of Design.	STD A8 Part II, 3.2 GM Doc 9760 Part III, C4		CE-5
5.151	Has the AID implemented the procedures to ensure that the aircraft type design is accepted prior to the issuance of the first certificate of airworthiness for an aircraft type?	Review aircraft files to confirm effective implementation of procedures.	STD A8 Part II, 3.2 GM Doc 9760 Part III, C4		CE-6
5.152	Does the State ensure that, when it first enters on its register an aircraft of a particular type for which it is not the State of Design and issues or validates a certificate of airworthiness, it advises the State of Design that it has entered such an aircraft on its register?	Review examples of correspondence with the State of Design for aircraft types first entered on the State's registry.	STD A8 Part II, 4.2.3 a) GM Doc 9760 Part II, 1.4.4 Part III, 1.2 g), 2.5.2, 9.2.2 a) & 9.3.1 Doc 10142 C4, 4.1.9		CE-6
5.153	Has the State promulgated regulations for operations-derived equipment which are not part of the type certification of aircraft?	Verify regulations for operations-derived equipment, as applicable: 1) FDR – Ref A6, Part I, 6.3; 2) CVR - Ref A6, Part I, 6.3;	STD A6 Part I, C6 Part II, 2.4 & 3.6		CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		3) VFR flights – Ref A6, Part I, 6.4; 4) Over water operations – Ref A6, Part I, 6.5; 5) Flight over designated land – Ref A6, Part 1, 6.6; 6) High altitude flights - Ref A6, Part I, 6.7 & 6.12; 7) Icing conditions - Ref A6, Part I, 6.8; 8) GPWS - Ref A6, Part I, 6.15; 9) ELT - Ref A6, Part I, 6.17; and 10) ACAS - Ref A6, Part I, 6.19	Part III, Section II, C4 & Section III, C4		
5.154	Has the State developed procedures for the verification of operations-derived equipment which are not part of the type certification of aircraft?	Verify procedures and/or checklists to assess compliance of operations-derived equipment, as applicable, including their installation, with the provisions of Annex 6.	STD A6 Part I, C6 Part II, 2.4 & 3.6 Part III, Section II, C4 & Section III, C4		CE-5
5.155	Does the AID adhere to the developed procedures for the verification of operations-derived equipment which are not part of the type certification of aircraft?	Review examples of compliance checklists or other method to confirm effective implementation of procedures.	STD A6 Part I, C6 Part II, 2.4 & 3.6 Part III, Section II, C4 & Section III, C4		CE-6
5.171	Has the State promulgated a regulation for modifications and repairs to be approved and the regulations to be met for obtaining such an approval?	Verify the regulations for the following: 1) applicant has comprehensive knowledge, experience and capabilities in the applicable technologies, such that in-depth analyses can be performed where required, as well as sufficient information on the type design of the aircraft involved; and 2) definition of major/minor modification/repair and different requirements for each.	STD A6 Part I, 8.6 Part II, 2.6.3 Part III, Section II, 6.6 & Section III, 6.4 A8 Part II, 1.3.5 GM Doc 9760 Part III, C8	Yes	CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		Note to the auditor: In practice, States with limited or no engineering competence accept modifications or repairs. In this case, verify that the data are required to be agreed upon by the organization responsible for the type design/manufacture.			
5.173	As the State of Registry, has the State developed procedures for the approval of modifications and repairs?	Review procedures and verify: 1) guidelines to determine if a modification requires an amendment to the type certificate or supplemental type certificate (STC); 2) contact with the State of Design as part of the assessment of a repair or modification if necessary; 3) consideration given to the compatibility between proposed design changes and other existing design changes; 4) evaluation of impact to noise certification; and 5) evaluation of impact to mass and balance. Note to the auditor: For States with limited or no engineering competence, verify the procedure for acceptance. See note under AIR PQ 5.171.	STD A6 Part I, 8.6 Part II, 2.6.3 Part III, Section II, 6.6 & Section III, 6.4 A16 Vol. I, Part II, 1.3 GM Doc 9760 Part III, 8.6 & 8.7	Yes	CE-5
5.175	Does the AID approve modifications and repairs in an effective and correct manner?	1) Review examples of approved modifications and repairs to confirm that the approval was performed in a correct manner. 2) Confirm that detailed records of approved data are retained.	GM Doc 9760 Part III, 8.6 & 8.7	Yes	CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		Note to the auditor: For States with limited or no engineering competence, verify that acceptance is appropriately performed. See note under AIR PQ 5.171.			
5.181	Do State regulations define whether the certificate of airworthiness will be renewed at set intervals or issued on a continuing basis?	Verify that the State has chosen one or the other; if issued on a continuing basis, a system for maintaining the validity of the certificate of airworthiness must be established.	STD A8 Part II, 3.2.3		CE-2
5.183	Has the State developed procedures and checklists for the initial issuance/renewal of a certificate of airworthiness?	Review procedures and verify that they include at least the following: 1) Application completed and submitted to the AID. 2) Design standards and airworthiness requirements under which the aircraft was type-certificated. 3) Review and retention of documents, such as: a) type certificate data sheet or equivalent; b) flight manual or equivalent document; c) mass and balance report; d) approved maintenance programme; and e) MEL. Note to the auditor: This may also be accomplished by a certification from an approved organization that the aircraft is airworthy.	GM Doc 9760 Part III, C4		CE-5
5.185	Has the State developed procedures for the validation of a certificate of airworthiness?	Review procedures to verify if: 1) the State ensures that the certificate was issued in compliance with all aspects of the Chicago Convention and the provisions of the applicable Annexes;	GM Doc 9760 Part III, 4.7		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		2) the State provides a suitable statement of authorization to be carried with the original certificate; and 3) the validity of the authorization shall not extend beyond the period of validity of the original certificate.			
5.187	Does the certificate of airworthiness issued by the State contain all the information required by Annex 8?	Review certificate of airworthiness and verify inclusion of the following information: 1) State of Registry or issuing authority; 2) nationality and registration marks; 3) manufacturer and manufacturer's designation of aircraft; 4) aircraft serial number; 5) date of issuance; 6) signature of approving official; 7) expiration date or reference to statement that aircraft is being maintained under a system of continuous inspection; and 8) issued in English or English translation included.	STD A8 Part II, 3.3.1, Fig. 1		CE-6
5.189	Does the CAA keep records for every aircraft registered in the State?	Review records to confirm that the following are available or retained in aircraft files: 1) records detailing applications and supporting documents for the certificates of registration and airworthiness; 2) copies of certificates issued; 3) the maintenance programme approved for the aircraft; 4) records of major modifications; and 5) other information relevant to the continuing airworthiness of the aircraft.	GM Doc 9760 Part II, 4.9.5		CE-6
5.201	Do State regulations require	Verify regulations for inclusion of	GM		CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	periodic mass and balance reports for all aircraft?	requirement and frequency.	Doc 9760 Part III, 7.6		
5.203	Does the AID verify that the mass and balance of the aircraft is checked periodically?	1) Review mechanism established. 2) Review evidence to confirm effective implementation.	GM Doc 9760 Part III, 7.6.2		CE-7
5.204	Has the State promulgated regulations for air operators to maintain up-to-date and sufficient documentation concerning FDR parameter allocation, conversion equations, periodic calibration and other serviceability/maintenance information and ensure their availability to accident investigation authorities?	Verify regulations.	STD A6 Part I, 6.3; App. 8, 2.3.2		CE-2
5.205	Does the State ensure at regular intervals that its air operators maintain up-to-date and sufficient documentation concerning FDR parameter allocation, conversion equations, periodic calibration and other serviceability/maintenance information?	1) Review surveillance programme. 2) Review inspectors procedures. 3) Sample inspection records. 4) Confirm that the documentation is sufficient to ensure that accident investigation authorities have the necessary information to read out the data in engineering units. 5) Verify during industry visit.	STD A6 Part I, 6.3 & 11.6; App. 8, 2.3.2		CE-7
5.211	Has the State promulgated regulations for compliance with mandatory continuing airworthiness information from the State of Design?	Verify regulations for compliance requirements to ADs in the State: 1) adopted directly; 2) CAA's letter/circular/document with reference to AD from State of Design; and 3) promulgation of a State AD.	STD A8 Part II, 4.2.3 d)		CE-2
5.215	Has the State established procedures for developing its own mandatory continuing airworthiness information on a product for which it is not the State	1) Guidelines for determining when additional information is necessary. 2) Coordination with the State of Design.	STD A8 Part II, 4.2.4 GM Doc 9760		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	of Design?		Part III, 9.5		
5.216	Has the State established and implemented a system for appropriate actions upon receipt of mandatory continuing airworthiness information from the State of Design?	1) Review system to ensure compliance with mandatory continuing airworthiness information received from the State of Design. 2) If additional mandatory continuing airworthiness information is issued or other action is taken, confirm necessary coordination with the State of Design.	STD A8 Part II, 4.2.4 GM Doc 9760 Part III, 9.4 & 9.5		CE-8
5.217	In respect of aeroplanes over 5700 kg and helicopters over 3175 kg maximum certificated take-off mass, has the State established and implemented a system to ensure that information on faults, malfunctions, defects and other occurrences that cause or might cause adverse effect on the continuing airworthiness of the aircraft is transmitted to the organization responsible for the type design of the aircraft, engine or propeller, or to the organization responsible for the design of the modification, when applicable?	1) Confirm that the established system includes the following: a) that the information shall be transmitted to the organization responsible for the type design of the aircraft; b) that whenever this information relates to an engine or propeller, such information shall be transmitted to both the organization responsible for engine or propeller type design and the organization responsible for aircraft type design; and c) that where a continuing airworthiness safety issue is associated with a modification, the information is transmitted to the organization responsible for the design of the modification. 2) Review evidence to confirm effective implementation. 3) Verify during industry visit.	STD A8 Part II, 4.2.4.1 g) GM Doc 9760 Part III, 7.1.7, 9.6		CE-8
5.231	Do State regulations provide for the issuance of a special flight permit in the case that an aircraft is no longer airworthy but must be	Verify regulations.	STD A8 Part II, 3.6.3 GM		CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	flown for repair?		Doc 9760 Part III, C5		
5.233	Has the State established procedures for the issuance of a special flight permit?	Review procedures to determine if the following are included: 1) confirm that the aircraft is capable of safe flight; and 2) limitations.	STD A8 Part II, 3.6.3 GM Doc 9760 Part III, C5		CE-5
5.235	Do the special flight permits issued by the CAA contain all the pertinent information?	Review example of certificate or letter to be used for inclusion of: 1) expiration date; 2) all essential limitations, such as non-commercial flight only, avoid areas where flights might create hazardous exposure to persons or property, etc.; and 3) not valid for use in foreign airspace unless validated by the foreign CAA whose airspace will be over flown.	GM Doc 9760 Part III, 5.3		CE-6
5.241	If the State issues an export certificate of airworthiness to facilitate the transfer of aircraft onto the register of another State, have the associated requirements been promulgated?	Verify regulations on the issuance of an export certificate of airworthiness. Note to the auditor: This PQ and AIR PQs 5.243 and 5.245 are not applicable to States which choose not to issue an export certificate of airworthiness.	GM Doc 9760 Part III, C6 Part V, C7		CE-2
5.243	If the State issues an export certificate of airworthiness to an aircraft, have the related procedures been developed?	Verify procedures include identification of additional special requirements or conditions from the CAA of the importing State.	GM Doc 9760 Part III, C6 Part V, C7		CE-5
5.245	If the State issues an export certificate of airworthiness for an aircraft, does the export certificate of airworthiness issued include all the appropriate information?	Review approvals to ensure inclusion of: 1) conformity certification; 2) indication of whether the aircraft is new or used; 3) specific regulations of the exporting State that the aircraft does not comply	GM Doc 9760 Part III, C6 Part V, C7		CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		with; 4) statement of compliance with any additional special requirements or special conditions specified by the importing State; and 5) statement that the approval is not an authorization to fly.			
5.251	Has the State developed industry guidelines for the reporting of unapproved parts to type certificate holders and regulatory agencies?	1) Review guidelines. 2) Verify that the industry is made aware of the guidelines. 3) Verify that the guidelines are publicly available to the industry.	GM Doc 9760 Part III, 9.10.6		CE-5
5.253	Has the State developed industry guidelines for the proper usage of parts removed from an aircraft no longer in service?	1) Review guidelines. 2) The guidelines should include the removal of parts from unserviceable aircraft and aircraft involved in accidents. 3) Verify that the industry is made aware of the guidelines. 4) Verify that the guidelines are publicly available to the industry.	GM Doc 9760 Part III, 9.10.8 & 9.10.9		CE-5
5.255	Has the State developed industry guidelines for the disposal of scrapped parts?	1) Review guidelines. 2) Verify that the industry is made aware of the guidelines. 3) Verify that the guidelines are publicly available to the industry.	GM Doc 9760 Part III, 9.10.10		CE-5
5.261	Do State regulations require that an air operator can only operate an aircraft, if it has been maintained and released to service by an AMO or by a person or organization in accordance with procedures that are authorized by the State of Registry of the aircraft?	1) Verify regulations. 2) Confirm the inclusion that the AMO is either approved by the State of Registry or is approved by another Contracting State and accepted by the State of Registry. 3) When maintenance is not carried out by an AMO, the maintenance release shall be completed and signed by a person appropriately licensed in	STD A6 Part I, 8.1.2 & 8.8.2 Part II, 2.6.1.2, 2.6.4.2 & 3.8.1.1 Part III, Section II, 6.1.2 & 6.7.2 & Section III, 6.1.2 & 6.5.2 GM Doc 9760		CE-2

		accordance with Annex 1.	Part III, 7.1.2, 7.1.3, 7.1.9, 7.7.1 & 10.1		
5.263	Is the AID involved in the process of evaluating an air operator for the issuance of an AOC, including the operations specifications issued in conjunction with the AOC?	1) Review with aircraft operations and verify established coordination arrangements and related documentation. 2) Verify AID endorsement prior to AOC issuance to confirm implementation of procedures.	STD A6 Part I, 4.2.1 Part III, Section II, 2.2.1 GM A6 Part I, Att. B, 2.4 Part III, Att. C, 2.4 Doc 9760 Part II, 4.7.1.2 c) & 4.7.3 h) Part IV, C2	Yes	CE-6
5.265	Does the State verify that the air operator employs qualified personnel to ensure that all aircraft maintenance is carried out in accordance with the maintenance control manual?	1) Review certification process/checklists. 2) Review evidence to confirm effective implementation.	STD A6 Part I, 8.1.3 Part III, Section II, 6.1.3 A19 App. 1, 6 GM Doc 9760 Part III, 7.1.4 Part IV, C2		CE-6
5.267	Does the AID review maintenance arrangements/contracts?	1) Review process. 2) Review evidence to confirm effective implementation. 3) Verify during industry visit.	STD A6 Part I, 11.2 a) Part III, Section II, 9.2 a) A19 App. 1, 6 GM Doc 9760 Part III, 7.7 Part IV, 2.3.2.5 & 2.4.7.7		CE-6
5.281	Has the State promulgated a	1) Verify regulations.	STD		CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	regulation for air operators to submit a maintenance control manual for review and acceptance?	2) Verify the inclusion of the following in the regulation: a) maintenance control manual shall be acceptable to the State of Registry, particularly with regard to the maintenance control of aircraft which is registered in another State; and b) the design of the manual shall observe Human Factors principles. Note to the auditor: For European Union Member States, this is addressed by the requirement for the approval of a Continuing Airworthiness Management Exposition (CAME).	A6 Part I, 8.2 Part III, Section II, 6.2 GM Doc 9683 Part 1, C6		
5.283	Has the State promulgated regulations for the content of a maintenance control manual?	Verify regulations for the content of the maintenance control manual: 1) names and duties of persons employed; 2) reference to maintenance programme; 3) methods for completion and retention of records; and 4) procedures for implementing mandatory continuing airworthiness action.	STD A6 Part I, 8.2 & 11.2 Part III, Section II, 6.2 & 9.2 GM Doc 9760 Part III, 7.2		CE-2
5.285	Has the State developed procedures for the review and acceptance of an operator's maintenance control manual?	Review procedures for: 1) inclusion of required contents; 2) revision control; and 3) document control.	STD A6 Part I, 11.2; App. 5, 5.2 Part III, Section II, 9.2; App. 1, 5.2 A19 App. 1, 5.1 GM Doc 9760 Part III, 7.2	Yes	CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
5.287	Does the AID review and approve/accept the maintenance control manual as part of the AOC issuance process?	1) Review AOC issuance process. 2) Check, if up-to-date copy is kept by the AID. 3) Sample an AID approved/accepted maintenance control manual to confirm effective implementation of established requirements and procedures.	STD A6 Part I, 11.2 Part III, Section II, 9.2 A19 App. 1, 6 GM A6 Part I, Att. B Part III, Att. C Doc 9760 Part IV, 2.4.7.2 & 2.5.3	Yes	CE-6
5.301	Has the State promulgated regulations for maintenance programmes to be approved by the State of Registry and Human Factors principles to be observed in the design and application of maintenance programmes?	1) Verify regulations. 2) Confirm the inclusion of leased aircraft that is registered in another State.	STD A6 Part I, 8.3.1 Part III, Section II, 6.3.1		CE-2
5.303	Has the State promulgated a regulation for the content of a maintenance programme?	Verify regulations include the following content requirements: 1) maintenance tasks and intervals; 2) continuing structural integrity programme, if applicable; and 3) certification maintenance requirements identified.	STD A6 Part I, 11.3 Part II, 3.11.2 Part III, Section II, 9.3 GM Doc 9760 Part III, 7.3		CE-2
5.305	Has the State developed procedures for the approval of maintenance programmes?	Review procedures for approval: 1) based on maintenance programme information made available by the State of Design or the organization responsible for the type design, and any additional applicable experience; and 2) document control.	STD A6 Part I, 11.3; App. 5, 5.1 Part III, Section II, 9.3; App. 1, 5.1 A19 App. 1, 5.1 GM	Yes	CE-5

	training appropriate to their assigned tasks and responsibilities?	2) Review evidence to confirm effective implementation. 3) Verify during industry visit.	Doc 9760 Part III, 10.10.3		
5.441	Has the AID developed a formal surveillance policy/procedure to be used by airworthiness inspectors for conducting surveillance activities of AOC holders, foreign air operators and domestic and foreign AMOs?	Review policy/procedure and check for inclusion of: 1) identification of surveillance activities (inspections, audits) to be carried out for AOC holders, foreign air operators, domestic and foreign AMOs, if any; 2) guidelines for scheduling surveillance activities; 3) inspection/audit process; and 4) standardized checklists.	STD A6 Part I, 4.2.1.8 & 4.2.2.2; App. 5, 5.1 & 7 Part III, Section II, 2.2.1.8 & 2.2.2.2; App. 1, 5.1 & 7 A19 App. 1, 5.1 & 7 GM Doc 8335 Part I, 2.2.3 & 5.2 Part IV & Part VI Doc 9760 Part II, 2.2.1, 4.4 & 4.7.4 Part III, 1.2 r) & s) Part IV, 1.2 i), j) & k)		CE-5
5.443	Is a formal surveillance programme implemented to verify that all AOC holders comply on a continuing basis with airworthiness-related national regulations, international standards, AOCs and corresponding operations specifications?	1) Review surveillance programme for previous and current year (planned and completed). 2) Inclusion of random checks on all aspects of maintenance. 3) Confirm appropriate frequency of surveillance activities (may be based on proven safety indicators or results of previous activities, such as inspections/audits). 4) Sample inspection/audit records for AOC holders.	STD A6 Part I, 4.2.1.8; App. 5, 7 Part III, Section II, 2.2.1.8; App. 1, 7 A19 App. 1, 7 GM Doc 8335 Part I, 2.2.3 & 5.2 Part IV Doc 9734 Part A, C2, 3.7 Doc 9760 Part II, 2.2.1, 4.4 & 4.7.4 Part III, 1.2 r) & s)	Yes	CE-7

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
			Part IV, 1.2 i), j) & k)		
5.444	Is a formal surveillance programme implemented to verify that all AMOs comply on a continuing basis with national regulations, international standards and AMO certificates?	1) Review surveillance programme for previous and current year (planned and completed). 2) Inclusion of random checks on all aspects of maintenance. 3) Confirm appropriate frequency of surveillance activities (may be based on proven safety indicators or results of previous activities, such as inspections/audits). 4) Sample inspection/audit records for domestic and AMOs in foreign States, if any. 5) For AMOs in foreign States, if tasks have been delegated to foreign authorities, check for evidence that the State has received and evaluated inspection/audit records provided by foreign authorities.	STD A8 Part II, 6.2.4 A19 App. 1, 7 GM Doc 9734 Part A, C2, 3.7 Doc 9760 Part II, 2.2.1, 4.4 & 4.7.4 Part III, 1.2 r) & s) Part IV, 1.2 i), j) & k)	Yes	CE-7
5.445	Has the AID implemented a documented process and/or a method to track identified deficiencies, to evaluate corrective actions presented by air operators and/or AMOs and to take appropriate actions, up to and including enforcement measures, to ensure the resolution of the identified deficiencies and safety issues in a timely manner?	1) Sample surveillance reports and correspondence with AOC holders, foreign air operators and domestic and foreign AMOs. 2) Review process/method to track identified deficiencies. 3) Confirm deficiencies rectified in a timely manner. 4) Review examples of actions taken, such as: a) fines; b) restriction/limitation of operations; and c) suspension/revocation of certificate.	STD A6 Part I, App. 5, 5.2 & 8 Part III, App. 1, 5.2 & 8 A19 App. 1, 8 GM Doc 8335 Part I, 5.2 Part IV & Part VI Doc 9734 Part A, 3.8 Doc 9760 Part II, 4.2 k), 4.4 & 4.7.4 Part III, 1.2 t) & u)	Yes	CE-8

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
			Part IV, 1.2 l)		
5.447	Does the surveillance programme include ramp inspections of aircraft operated by AOC holders and foreign air operators?	1) Review ramp inspection programme for previous and current year (planned versus completed). 2) Confirm appropriate frequency. 3) Review evidence on policy on items to be checked during ramp inspections, such as: a) flight deck - general (e.g. condition, emergency exit, equipment); b) flight deck - documentation (e.g. manuals, checklists, route guide, MEL, documents to be carried on board, flight deck safety equipment); c) cabin/Safety; d) aircraft external condition, e.g. previous structural repairs, obvious damage, leakage (e.g. apparent corrosion); e) cargo (condition of cargo compartment and containers, dangerous goods, safety of cargo on board); and f) general (additional remarks, refuelling, language for communication).	STD A6 Part I, 4.2.1.8 & 4.2.2.2; App. 5, 7 Part III, Section II, 2.2.1.8 & 2.2.2.2; App. 1, 7 A19 App. 1, 7 GM Doc 8335 Part IV & Part VI Doc 9760 Part II, 4.7.4 Part IV, 1.2 k)		CE-7
5.448	Does the CAA keep records of all ramp inspections of aircraft carried out, accessible to and updated by the inspectors concerned?	1) Check records for ramp inspections or database. 2) Verify the scope of ramp inspections performed.	Doc 8335 Part IV, 2.8 Doc 9760 Part II, 4.7.4		CE-6
5.449	If deficiencies are identified during the conduct of ramp inspections and indicate serious safety deficiencies/concerns, does the regulatory authority take appropriate action when necessary to preserve safety?	Verify: 1) procedures to guide inspectors on actions to be taken against air operators, including level of findings (minor, significant, major); 2) examples of actions taken; 3) feedback provided to air operators and	STD A6 Part I, 4.2.1.8 & 4.2.2.2; App. 5, 5.2 & 8 Part III, Section II, 2.2.1.8 & 2.2.2.2; App. 1, 5.2 & 8 A19		CE-8

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		the air operator's response/proposal regarding the rectification of deficiencies/concerns; 4) examples of correspondence with the State of Registry of the aircraft.	App. 1, 8 GM Doc 8335 Part VI, 1.3.2 Doc 9760 Part II, 4.7.4.3		
5.451	Does the AID conduct ongoing surveillance of reliability programmes?	Verify 1) monitoring of reliability programmes; 2) EDTO monitoring; and 3) attendance by AID at air operator's periodic meetings.	GM Doc 9760 Part II, 4.7.4.4 d) Part III, 7.4 Part IV, C2 & C5		CE-7
5.453	Does the AID initiate a special evaluation or impose special operational restrictions if information obtained from reliability monitoring indicates a degraded level of safety?	Review examples of actions taken. Note to the auditor: If surveillance of reliability programmes is not conducted, this PQ is automatically Not Satisfactory.	GM Doc 9760 Part II, 4.7.4.4 d) Part IV, 5.4		CE-8
5.461	Has the State established an organizational structure for AED?	Confirm current approved organizational structure for AED, including lines of responsibility. Note to the auditor: This PQ is not linked to ORG PQ 2.010.	STD A19 App. 1, 3.1 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.1.2 & 4.6.1		CE-3
5.463	Are the functions and responsibilities of the AED clearly defined?	1) Review the document detailing functions and responsibilities of the AED. 2) This PQ is not linked to ORG PQ 2.011.	STD A19 App. 1, 3.1 GM Doc 9760 Part II, 4.6		CE-3
5.467	Have job descriptions been developed for technical staff and key management personnel of the AED?	Review job descriptions for AED staff, including: 1) aircraft certification engineers; 2) continuing airworthiness engineers;	GM Doc 9734 Part A, C3 Doc 9760		CE-3

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		and 3) manufacturing inspectors.	Part II, 4.6		
5.469	If the State is involved in design or manufacturing activities, is there a clear separation of authority between the State manufacturing/design organization and the State regulatory authority?	1) Review organizational structure and verify separation of authority. 2) Verify documented evidence to ensure separation of authority.	GM Doc 9734 Part A, C2		CE-3
5.471	Has the State established the appropriate minimum qualifications and experience requirements for technical personnel performing airworthiness engineering functions?	Qualification/experience requirements should include: 1) relevant knowledge, background and experience related to the design, manufacture and airworthiness certification of aircraft and its related aeronautical products; and 2) aeronautical licenses, certificates or academic degrees commensurate with their job responsibilities.	STD A19 App. 1, 4.1 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.5.1, 4.5.2 & 4.5.5.1		CE-4
5.472	Does the State ensure that the established minimum qualification and experience requirements are met by all technical personnel performing airworthiness engineering functions?	1) Sample recruitment files. 2) Cross-check with established requirements.	STD A19 App. 1, 4.1 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.5.1 & 4.5.2		CE-4
5.473	Does the AED have sufficient human resources to carry out its functions and mandate?	Verify: 1) mechanism established for determining staffing needs; and 2) ability to: a) attract new technical personnel; b) fill existing vacancies; and, c) reduce level of turnover in past years; 3) Ability to carry out all safety oversight related tasks, including review and	STD A19 App. 1, 3.1 RP A19 App. 1, 3.5 GM Doc 9734 Part A, C3		CE-3

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		revision of regulations, training of technical staff, development of guidance material, issuance of certificates, approvals, and permits, conduct surveillance and resolution of identified safety deficiencies. This PQ is not linked to ORG PQ 2.053.	Doc 9760 Part II, 4.5.1		
5.477	If the AED delegates its duties to other CAA divisions, State bodies, Contracting States, regional organizations, private agencies or individuals, have requirements for competency been established?	1) Review competency requirements for delegated entities. 2) Review minimum qualifications and experience required for individuals receiving delegation.	GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.1		CE-4
5.479	If the AED delegates its duties to other CAA divisions, State bodies, Contracting States, regional organizations, private agencies or individuals, have the delegated tasks been clearly defined?	1) Review documentation clearly defining tasks delegated. 2) Verify the legal mechanism for the delegation.	GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.1		CE-3
5.481	Does the AED conduct surveillance of duties delegated to other CAA divisions, State bodies, Contracting States, regional organizations, private agencies or individuals?	1)Review mechanism for oversight 2)Review evidence to confirm effective adherence. 3)Review mechanism for maintenance of competency for delegated duties.	STD A19 App. 1, 7 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.1 & 4.4		CE-7
5.483	If deficiencies or concerns are identified in the duties delegated to other CAA divisions, State bodies, Contracting States, regional organizations, private agencies or individuals, does the AED have a process in place to resolve said	Review examples of corrective actions taken to resolve concerns related to delegated duties.	STD A19 App. 1, 8 GM Doc 9734 Part A, C3		CE-8

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	deficiencies or concerns?				
5.485	Has the AED developed a formal training programme detailing the type of training to be provided to technical personnel performing airworthiness engineering functions?	1) Review contents of training programme. 2) Confirm inclusion of initial, OJT, recurrent and specialized training, as applicable, with time periods to be provided. 3) Verify specialized training, as applicable, for technical personnel: a) avionics; b) propulsion systems; c) structures; d) general aviation aircraft; e) helicopters; f) flight testing; g) human factors; h) quality systems; i) modifications and repairs; j) MRB and MSG3; k) system safety assessment; l) auditing techniques; and m) Safety Management Systems.	STD A19 App. 1, 4.1 GM Doc 9683 Doc 9734 Part A, C3 Doc 9760 Part II, 4.5.5		CE-4
5.489	Is the training programme for technical personnel performing airworthiness engineering functions appropriately implemented?	1) Verify if periodic training plans detailing the types of training to be provided during established period have been developed by the AED. 2) Verify that the type and frequency of training provided (initial, recurrent, specialized and OJT) are sufficient for the technical staff to achieve/maintain the required level of knowledge, skills, competence and qualifications in accordance with their assigned duties and responsibilities.	STD A19 App. 1, 4.1 GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.5.5		CE-4
5.493	Does the AED have a system for the	1) Review instruction or requirement for	STD		CE-4

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	maintenance of training records for its technical staff?	the establishment and maintenance of training records. 2) Verify training records are systematically retained.	A19 App. 1, 4.2 GM Doc 9734 Part A, C3		
5.501	Are the relevant ICAO documents and other technical publications readily available to the technical and administrative staff of the AED?	Verify if relevant publications are readily available, such as: 1) current copy of Annexes 6 (Parts I, II and III), 7, 8, 16 (Volumes I, II and III) and 19; and 2) copies of ICAO guidance material (Doc 9734, Doc 9735, Doc 9760, Doc 9859, Doc 10059, etc.). Note to the auditor: Check for field/regional offices as well as Headquarters.	GM Doc 9734 Part A, C3 Doc 9760 Part II, 4.9		CE-5
5.505	Do airworthiness engineers have access to all necessary airworthiness data from the organization responsible for the type design and continuing airworthiness information for the aircraft on the State's register?	Verify accessibility of documents, such as: 1) aircraft flight manual; 2) maintenance manual; 3) structural repair manual; 4) service bulletins; 5) MMEL; 6) MRB report; and 7) ADs. Note to the auditor: Documents may be found in the technical library in hard/electronic copy or via the Intranet/Internet. If access to documents is dependent on industry, engineers should at least have an index to confirm currency of documents.	STD A8 Part II, 4.2.3 GM Doc 9760 Part II, 4.9		CE-5
5.521	If the State, as the State of Design, issues type certificate approvals,	Verify regulations.	STD A8		CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	are there regulatory provisions in place to allow the CAA to impose additional requirements to provide at least an equivalent level of safety in the event that the applicable airworthiness requirements are inadequate or inappropriate?		Part II, 1.2.3 & 1.2.4 GM Doc 9760 Part V, 2.3.2.4.3		
5.523	Has the State promulgated a regulation for type certificate applicants to provide and keep all the drawing, specifications, reports and documentary evidence necessary to define the design of the aircraft and show compliance with the design aspects of the appropriate airworthiness requirements?	Verify regulations.	STD A8 Part II, 1.3.1 GM Doc 9760 Part V, 2.3.6.2		CE-2
5.525	Has the State promulgated a regulation for aircraft to be subjected to such inspections and ground and flight tests as are deemed necessary by the State to show compliance prior to receiving a type certificate?	Verify regulations.	STD A8 Part II, 1.3.3 GM Doc 9760 Part V, 2.3.4 & 2.3.5.1		CE-2
5.527	Has the State promulgated a regulation for type certificate applicants to develop the maintenance tasks and frequencies (maintenance programme) required for maintaining the aeroplane in an airworthy condition?	Verify regulations.	STD A8 Part IIIA, C10 Part IIIB, 7.7 Part IVB, 7.7 Part VA, 7.7 Part VB, 7.7 Part VI, 1.4 Part VII, 1.3 GM		CE-2

	ensure that an applicant for a production certificate/approval establishes procedures for an independent quality assurance function including any corrective action system of ensuring compliance with the approved quality system?	procedures for an independent quality assurance function (e.g. internal quality audits). 2) Applicants' quality assurance function includes a corrective action system. 3) Review evidence to confirm effective implementation.	Part V, 4.1.2.2		
5.637	Does the CAA issue a production limitation record which lists every product that the applicant is authorized to manufacture under the terms of the production certificate/approval?	1) Review limitation records to confirm effective implementation. 2) Check any revisions or additions which have been made.	GM Doc 9760 Part V, 4.1.2.5		CE-6
5.639	Has the CAA established and implemented a mechanism to ensure that the holder of a production certificate/approval determines that each part and completed product conforms to the type design and is in a condition for safe operation?	Review conformity inspection records to confirm effective implementation.	GM Doc 9760 Part V, 4.1.3.2 b)		CE-6
5.640	Has the CAA established and implemented a mechanism to ensure that all materials used in parts of the aeroplane essential for its safe operation conform to approved specifications?	Review inspection reports to confirm effective implementation.	STD A8 Part IIIA, 4.1.2 Part IIIB, 4.1.3 Part IVA, 4.1.2 Part IVB, 4.1.3 Part VA, 4.1.3 Part VB, 4.1.3		CE-6
5.641	Has the CAA established and implemented a mechanism to ensure that production certificate/approval holders mark all products in accordance with the	Review evidence to confirm effective implementation.	GM Doc 9760 Part V, 4.1.3.2 c)		CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	applicable regulations?				
5.643	Has the CAA established and implemented a mechanism to ensure that production certificate/approval holders maintain complete and current records showing that all inspections and tests to show compliance have been completed and documented?	Review inspection reports to confirm effective implementation.	GM Doc 9760 Part V, 4.1.3.2 e)		CE-6
5.651	Has the State promulgated regulations that allow production activity in the absence of a production certificate or production organization approval?	Verify that regulations address the following: 1) make each product and part available for inspection by the CAA; 2) maintain all necessary technical data and drawings for conformity determination; 3) establish and maintain an accepted/approved production inspection system; 4) submission of a manual to the CAA describing the system and 5) mark each product and part.	STD A8 Part II, 2.4.1, 2.4.3, and 2.4.4 GM Doc 9760 Part V, 4.2.2		CE-2
5.653	Has the State established procedures for production approval in the absence of a production certificate or production organization approval?	Verify that the procedures contain at least the following requirements for the manufacturer: 1) establishment of an accepted/approved production inspection system; 2) submission of a manual to the CAA which describes the system and the quality control procedures of the materials review board; 3) marking of each product and part in accordance with the applicable	GM Doc 9760 Part V, 4.2		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		regulations; 4) establishment of a CAA-approved production flight test procedure, if applicable; 5) ensuring that each aircraft engine is subjected to an acceptable test run, if applicable; 6) ensuring that each variable pitch propeller is given an acceptable functional test to determine that it operates properly throughout the normal range of operation, if applicable; and 7) submission of a statement of conformity, as required by the CAA.			
5.655	Has the CAA issued production approvals in the absence of a production certificate or production organization approval in accordance with the established regulations and procedures?	Review evidence to confirm effective implementation of procedures. Verify implementation of the following requirements for the manufacturer: 1) establishment of an accepted/approved production inspection system; 2) submission of a manual to the CAA which describes the system and the quality control procedures of the materials review board; 3) marking of each product and part in accordance with the applicable regulations; 4) establishment of a CAA-approved production flight test procedure, if applicable; 5) ensuring that each aircraft engine is subjected to an acceptable test run, if applicable; 6) ensuring that each variable pitch	GM Doc 9760 Part V, 4.2		CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		propeller is given an acceptable functional test to determine that it operates properly throughout the normal range of operation, if applicable; and 7) submission of a statement of conformity, as required by the CAA.			
5.681	Has the AED developed a formal surveillance policy/procedure to be used by technical personnel performing airworthiness engineering functions for conducting surveillance activities for all production organizations?	Review policy/procedure and check for inclusion of: 1) guidelines for scheduling inspections/audits; 2) inspection/audit process; 3) standardized checklists; and 4) inspections of approved and non-approved organizations.	STD A19 App. 1, 5.1 & 7 GM Doc 9734 Part A, C3		CE-5
5.683	Does the AED establish a formal surveillance programme for the continuing supervision of all production organizations?	1) Review surveillance programme for current and previous year. 2) Verify inclusion of random checks on all aspects of approved/non-approved production organizations. 3) Confirm appropriate frequency of inspection/audit. 4) For production organizations in foreign States, if tasks have been delegated to foreign authorities, check for evidence that the State has received and evaluated inspection/audit records provided by foreign authorities.	STD A19 App. 1, 7 GM Doc 9734 Part A, 3.7		CE-7
5.685	Has the State established means to take actions if deficiencies identified during the surveillance activities of a production organization are not rectified in a reasonable time?	1) Review the means established. 2) Review examples of actions taken.	STD A19 App. 1, 8 GM Doc 9734 Part A, 3.8		CE-8
5.901	Has the State promulgated specific operating regulations to require	Verify that the regulations: 1) require AMOs to implement an SMS	CC Art 37		CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	approved maintenance organizations (AMOs) to implement a safety management system (SMS)?	that is acceptable to the State; 2) require the SMS to be established in accordance with the SMS framework elements contained in Appendix 2 to Annex 19; and 3) comply with the latest amendments to Annex 19. Notes to the auditor: 1) The SMS framework components and elements in Appendix 2 to Annex 19 are: 1. Safety policy and objectives: 1.1 Management commitment; 1.2 Safety accountability and responsibilities; 1.3 Appointment of key safety personnel; 1.4 Coordination of emergency response planning; 1.5 SMS documentation; 2. Safety risk management: 2.1 Hazard identification; 2.2 Safety risk assessment and mitigation; 3. Safety assurance: 3.1 Safety performance measurement and monitoring; 3.2 The management of change; 3.3 Continuous improvement of the SMS; 4. Safety promotion: 4.1 Training and education; 4.2 Safety communication. 2) This PQ is only applicable to approved maintenance organizations (AMOs) providing services to operators of aeroplanes or helicopters engaged in international commercial air transport.	STD A19 3.3.2 & 4.1 App 1, 2. GM Doc 9734, Part A 3.2 Doc 9859 1.3.5 & 9.7.4		

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
5.905	Does the State ensure that the personnel responsible for the acceptance and continuous surveillance of AMOs SMS are qualified to perform their functions and responsibilities?	Verify that: 1) the State has identified competency requirements for personnel responsible for the acceptance and continuous surveillance of an SMS; 2) the content of the training programme addresses the SMS framework elements contained in Appendix 2 to Annex 19; 3) the training also includes (but is not limited to) the following: a) evaluation and acceptance of an AMO's SMS; b) evaluation and acceptance of an AMO's safety performance indicators (SPIs); c) continuous surveillance of the AMO's SMS in a safety management environment; d) hazard identification and risk management processes and methodologies; e) protection of safety data, safety information and related sources; f) enforcement under the framework of SMS; and g) soft skills (e.g. effective communication skills, negotiation skills, conflict resolution, etc.); 4) a training plan has been implemented; 5) initial, OJT and recurrent training, as applicable, with specified-time periods are included; and 6) training records are systematically retained.	STD A8, Part II, Paragraphs 2.4.1, 2.4.3 and 2.4.4 STD A19 3.2.4 App 1, 4.1, 4.2 App 2 GM Doc 9734, Part A 3.4 Doc 9859 8.3.7		CE-4

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		Notes to the auditor: 1) The framework components and elements in Appendix 2 to Annex 19 are addresses in PQ 5.901. 2) This PQ is only applicable to approved maintenance organizations (AMOs) providing services to operators of aeroplanes or helicopters engaged in international commercial air transport.			
5.909	Has the State provided guidance material to the industry on the establishment and management of an SMS?	Verify that the guidance material: 1) includes the processes for the establishment and management of an SMS; 2) addresses the SMS framework elements contained in Appendix 2 to Annex 19; 3) is updated and made accessible to AMOs; and 4) corresponds with activities conducted by the AMOs. Notes to the auditor: 1) The framework components and elements in Appendix 2 to Annex 19 are addressed in PQ 5.901. 2) This PQ is only applicable to approved maintenance organizations (AMOs) providing services to operators of aeroplanes or helicopters engaged in international commercial air transport.	STD A19 3.2.5 App 1, 5.2 App 2 GM Doc 9734, Part A 3.5 Doc 9859 8.3.8		CE-5
5.913	Has the State established procedures for the acceptance of AMOs SMS?	Verify that the established procedures: 1) describe the processes for the acceptance of an SMS, where the SMS manual at least includes: a) safety policy and safety objectives;	STD A19 3.2.5 App 1, 5.1		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		b) reference to any applicable regulatory SMS requirements; c) system description; d) safety accountabilities and key safety personnel; e) voluntary and mandatory safety reporting system processes and procedures; f) hazard identification and safety risk assessment processes and procedures; g) safety investigation procedures; h) procedures for establishing and monitoring safety performance indicators; i) SMS training processes and procedures and communication; j) safety communication processes and procedures; k) internal audit procedures; l) management of change procedures; m)SMS documentation management procedures; n)where applicable, coordination of emergency response planning. 2) address the SMS framework elements contained in Appendix 2 to Annex 19; and 3) are updated and made accessible to personnel responsible for the acceptance of an SMS. Notes to the auditor: 1) The framework components and elements in Appendix 2 to Annex 19 are addressed in PQ 5.901. 2) This PQ is only applicable to approved	GM Doc 9734, Part A 3.5 Doc 9859 8.3.8 & 9.3.8.3		

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		maintenance organizations (AMOs) providing services to operators of aeroplanes or helicopters engaged in international commercial air transport.			
5.917	Has the State established procedures for the continuous surveillance of AMOs SMS?	Verify that the established procedures: 1) describe the processes for the continuous surveillance of an SMS; and 2) are updated and made accessible to personnel responsible for the surveillance of an SMS. Note to the auditor: This PQ is only applicable to approved maintenance organizations (AMOs) providing services to operators of aeroplanes or helicopters engaged in international commercial air transport	STD A19 3.2.5 App 1, 5.1 GM Doc 9734, Part A 3.5 Doc 9859 8.3.8		CE-5
5.921	Has the State accepted the SMS of individual AMOs?	Review evidence of implemented procedures for accepting an SMS including the maintenance of SMS operational records. Note to the auditor: This PQ is only applicable to approved maintenance organizations (AMOs) providing services to operators of aeroplanes or helicopters engaged in international commercial air transport.	STD A19 4.1 App 1, 6 App 2 GM Doc 9734, Part A 3.6 Doc 9859 8.4.6 & 8.4.7		CE-6
5.925	Does the State ensure that the AMOs identify hazards, assess identified safety risks, and mitigate them appropriately?	Verify that the State ensures the AMOs: 1.maintain a process to: a) identify hazards associated with their aviation products or services; b) assess safety risks; and c) mitigate safety risks; and	STD A19 App2, 2.1 & 2.2 GM Doc 9859		CE-7

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		2.actively identify hazards, assess safety risks and mitigates them appropriately. Notes to the auditor: 1) This verification needs to be reviewed during the industry visit. 2) This PQ is only applicable to approved maintenance organizations (AMOs) providing services to operators of aeroplanes or helicopters engaged in international commercial air transport.	9.4.4 & 9.4.6		
5.929	Does the State ensure that safety performance indicators and targets established by AMOs are acceptable to the State? This PQ has been temporarily removed. It will be amended due to a change in the Standard. Self-assessment not required.	1) Review the State's mechanism for accepting individual AMOs safety performance indicators (SPIs) and targets (when applicable) to verify that proposed SPIs and respective targets (as applicable), are developed in a manner that supports the effort to meet their safety objectives, are formulated in a manner to ensure that they are specific, measurable, achievable, relevant and timebound. 2) Verify that the State ensures that the AMOs' proposed SPIs are reviewed and accepted as part of the SMS acceptance. Notes to the auditor: 1) SPIs acceptance may also be done later in the implementation process. 2) This verification needs to be reviewed during the industry visit. 3) This PQ is only applicable to approved maintenance organizations (AMOs) providing services to operators of aeroplanes or helicopters engaged in	STD A 19 App 2, 3.1 RP A19 3.3.2.2 GM Doc 9859 4.3.3 & 8.4.7.		CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		international commercial air transport.			
5.933	Does the State ensure the AMOs monitor their safety performance?	Verify that the State has established and implemented a mechanism to ensure that the AMOs periodically review their safety performance including the means to: 1) validate the effectiveness of safety risks controls; 2) validate the identification of changes that may affect the level of safety risks associated with their aviation products or services; and 3) validate the identification and management of the safety risks that may arise from those changes.	STD A 19 App2, 3.1; 3.2 & 3.3 GM Doc 9859 8.5.4 9.5.4 9.5.5 & 9.5.6		CE-7
5.937	Does the State ensure that the AMOs personnel involved in SMS are qualified to perform their functions and responsibilities?	1) Verify that the State has established and implemented a mechanism to validate that the AMOs personnel involved in SMS are qualified to perform their functions and responsibilities. 2) Sample surveillance activities records. Note to the auditor: 1) The scope of the safety training programme should be appropriate to each individual's involvement in the SMS. 2) Review the training records of the AMOs personnel during the industry visit. 3) This PQ is only applicable to approved maintenance organizations (AMOs) providing services to operators of aeroplanes or helicopters engaged in international commercial air transport.	STD A19 App 2, 4.1 GM Doc 9859 9.6.4		CE-7
5.941	Does the State ensure that the AMOs continually promote safety?	Verify that the State ensures the AMOs: 1) develop and maintain a formal mean for safety communication that includes:	STD A19 App 2, 4.2		CE-7

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		a) ensuring personnel are aware of the SMS to a degree commensurate with their positions; b) conveying safety-critical information; c) explaining why particular actions are taken to improve safety; and d) explaining why safety procedures are introduced or changed; and 2.have considered communicating to external organizations any of their safety related information. Note to the auditor: This PQ is only applicable to approved maintenance organizations (AMOs) providing services to operators of aeroplanes or helicopters engaged in international commercial air transport.	GM Doc 9859 9.6.5		
5.951	Has the State promulgated specific operating regulations to require organizations responsible for the type design or manufacture ~~of aircraft, engines or propellers (organizations responsible for the type design or manufacture)~~ to implement a safety management system (SMS)?	This PQ applies only to organizations responsible for the type design or manufacture of aircraft, engines or propellers. Verify that the regulations: 1) require organizations responsible for the type design or manufacture to implement an SMS that is acceptable to the State; 2) require the SMS to be established in accordance with the SMS framework elements contained in Appendix 2 to Annex 19; and 3) comply with the latest amendments to Annex 19. Note to the auditor:	CC Art 37 STD A19 3.3.2 & 4.1 App 1, 2. GM Doc 9734, Part A 3.2 Doc 9859 1.3.5 & 9.7.4		CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		The SMS framework components and elements in Appendix 2 to Annex 19 are: 1. Safety policy and objectives: 1.1 Management commitment; 1.2 Safety accountability and responsibilities; 1.3 Appointment of key safety personnel; 1.4 Coordination of emergency response planning; 1.5 SMS documentation; 2. Safety risk management: 2.1 Hazard identification; 2.2 Safety risk assessment and mitigation; 3. Safety assurance: 3.1 Safety performance measurement and monitoring; 3.2 The management of change; 3.3 Continuous improvement of the SMS; 4. Safety promotion: 4.1 Training and education; 4.2 Safety communication.			
5.955	Does the State ensure that the personnel responsible for the acceptance and continuous surveillance of SMS are qualified to perform their functions and responsibilities?	Verify that: 1) the State has identified competency requirements for personnel responsible for the acceptance and continuous surveillance of an SMS; 2) the content of the training programme addresses the SMS framework elements contained in Appendix 2 to Annex 19; 3) the training also includes (but is not limited to) the following: a) evaluation and acceptance of an organization responsible for the type design or manufacture's SMS; b) evaluation and acceptance of an	STD A19 3.2.4 App 1, 4.1, 4.2 App 2 GM Doc 9734, Part A 3.4 Doc 9859 8.3.7		CE-4
