USOAP CMA ~~20202~~2024 Protocol Questions
Aircraft operations — OPS

Explanatory Note on the ~~20202~~2024 Edition of the Protocol Questions (PQs):

Revised on the basis of the ~~20172~~2020 edition, this ~~20202~~2024 edition of the USOAP CMA Protocol Questions (PQs) follows the ~~recommendations of~~ High-level Conference on COVID-19 (HLCC 2021) Recommendations (C-WP/15312 refers) regarding the ~~Group of Experts for a~~ integration of State Safety Programme Implementation Assessment (SSPIA) with traditional Universal Safety Oversight Audit Programme (USOAP ~~–~~) Continuous Monitoring Approach (CMA ~~Structured Review (GEUSR) (C-WP14757 refers) –~~) activities that ~~was~~were approved by the Council of ICAO on ~~18 June 2018.~~4 March 2022 (C-DEC 225/7 refers). Some notable features of this ~~20202~~2024 edition of PQs are the ~~exclusion~~addition of ~~certain PQs that are not relevant~~ Safety Management System (SMS) related PQs to the ~~State safety oversight system or the accident~~areas of personnel licensing and ~~incident investigation system, reduction of the total number~~training (PEL), aircraft operations (OPS), airworthiness of ~~PQs (from 943 to 790~~aircraft (AIR), air navigation services (ANS), and ~~identification~~aerodromes and ground aids (AGA), as well as the addition of a ~~subset of Priority PQs.~~

~~At the same time, a separate~~ set of new PQs on State Safety Programme (SSP) ~~was developed in 2018 to assess the SSP implementation by States. These~~ as a new audit area.

The newly added PQs on SSP and SMS will have an undetermined status thus will not affect the Effective Implementation (EI) scores, until they are audited. Dedicated EI score for SSP ~~related PQs are posted on the "CMA Library" page of the USOAP CMA online framework (https://www.icao.int/usoap).~~

will be provided separately. Once States and relevant regional organizations are migrated to the ~~20202~~2024 PQ edition, the ~~Effective Implementation (~~EI~~) values~~ scores for ~~all their~~the USOAP activities on safety oversight, as indicated on the USOAP CMA online framework, will ~~also~~ be updated and adjusted accordingly.

The existing SSPIA PQs, including the self-assessments submitted and the assessment results for those States which had received SSPIAs, will be archived and can be made available upon request.

Introduction to the ICAO USOAP CMA Protocol Questions

Protocol Questions (PQs) are the primary tool used in the ICAO Universal Safety Oversight Audit Programme (USOAP) Continuous Monitoring Approach (CMA) for assessing the effective implementation of the eight critical elements (CEs) of a State's safety oversight system. Developed based on ICAO Standards and Recommended Practices (SARPs), Procedures for Air Navigation Services (PANS) and ICAO guidance material, the PQs are revised periodically by ICAO to reflect amendments to the ICAO provisions and reference documents.

The PQs are organized by audit areas and each PQ is associated with one of the eight CEs.

The ~~eight~~nine audit areas are as follows:

1) Primary aviation legislation and specific operating regulations (LEG);
2) Civil aviation organization (ORG);
3) Personnel licensing and training (PEL);
4) Aircraft operations (OPS);
5) Airworthiness of aircraft (AIR);
6) Aircraft accident and incident investigation (AIG);
7) Air navigation services (ANS);~~ and~~
8) Aerodromes and ground aids (AGA); and
~~8)~~9) State Safety Programme (SSP).

The eight CEs are as follows:

CE-1. Primary aviation legislation
CE-2. Specific operating regulations
CE-3. State system and functions
CE-4. Qualified technical personnel
CE-5. Technical guidance, tools and provision of safety-critical information
CE-6. Licensing, certification, authorization and approval obligations
CE-7. Surveillance obligations
CE-8. Resolution of safety issues

States are expected to use the PQs to conduct regular self-assessments and in this way, monitor the health of their aviation safety oversight system in a proactive manner.

A State is deemed to have *fully addressed* a PQ when it has implemented all the required elements of the PQ. This generates a *"satisfactory"* status of implementation for the PQ. If the State provides insufficient or no evidence of compliance with the elements outlined in the PQ, the PQ is assessed as *"not satisfactory"*. The State is required to develop and implement a corrective action plan (CAP) which fully addresses the associated PQ and all identified deficiencies.

The status of each PQ for a State is reflected in the USOAP CMA Online Framework (https://www.icao.int/usoap) and summarized in the activity report.

For reference purposes, the PQs are hereby presented in a table format. Each PQ is assigned a PQ number (e.g. 1.001), associated with a CE (e.g. CE-1), and supplemented by the relevant "Guidance for Review of Evidence" and "ICAO References". PQs shown in shaded rows can be assessed only in a USOAP CMA on-site activity, while Priority PQs are indicated as such (with "Yes" note) under the "PPQ" column.

For each PQ, the corresponding "Guidance for Review of Evidence" provides *an itemized list of elements* to be implemented by the State in order to address the PQ *satisfactorily*. When preparing for a USOAP CMA audit, States should use these listed elements, as applicable, to prepare the necessary supporting documentation and evidence for all PQs within the scope of the audit. When preparing for an ICAO validation activity, States should provide the necessary supporting documentation and evidence for all PQs, within the scope of the validation activity, that were previously assessed as *"not satisfactory"*.

Representatives of a State's civil aviation authority/investigation authority who participate in USOAP CMA activities should be familiar with each PQ and the related "Guidance for Review of Evidence" that will be addressed during the activities. All the information and evidence for each PQ that are to be provided to the USOAP CMA activity team should be prepared in advance.

The "Summary of Amendments" table provides a list of new, revised, merged and deleted PQs and a brief description of the amendments.

For the ~~2020~~2024 edition of the PQs, the total number of PQs is ~~790~~851 and a breakdown for each area is shown below:

	Area	Number of ~~2020~~2024 PQs
1	LEG	23
2	ORG	13
3	PEL	~~93~~100
4	OPS	~~126~~136
5	AIR	~~186~~198
6	AIG	84
7	ANS	~~122~~128
8	AGA	~~143~~153
9	SSP	16
TOTAL NUMBER		***~~790~~851***

— — — — — — — —

General Guidelines for All Areas

Legislation, Primary Aviation Legislation and Specific Operating Regulations

The term "legislation" in the USOAP CMA Protocol Questions is used as a generic term to include primary aviation legislation and specific operating regulations.

The term "primary aviation legislation" in the USOAP CMA Protocol Questions includes any legislative provision and/or instrument promulgated and enforceable in the State (e.g. laws, acts, codes and international treaties).

The term "specific operating regulations" in the USOAP CMA Protocol Questions includes any binding regulatory provisions and/or instruments in the State (e.g. regulations, decrees, rules, and orders).

Processes and Procedures

Processes and procedures should clarify *who does what, how, when* (or *within what timeframes*) and *in coordination with whom*, as applicable.

Delegation of Duties and Tasks

When a State has delegated some of its safety oversight duties and tasks to another State or organization, the PQs on the delegation may have to be evaluated with the entity to which the duties and tasks have been delegated.

The State remains responsible for ensuring that the delegated duties and tasks are performed, at all times, by qualified individuals who ensure the implementation of the applicable legislation as well as the established processes and procedures. There should also be a system in place for conducting surveillance of the delegated duties and tasks and a process for the resolution of identified safety deficiencies.

Regulatory Function versus Service Provider Function

For a State which has not established a clear separation between its regulatory function and its service provider function or where the State Civil Aviation Authority (CAA) is both the regulator *AND* the service provider, the related PQs remain applicable.

Industry Visits

Industry visits are conducted to review and verify that the implementation of the established requirements, procedures and safe practices in each area complies with ICAO provisions and the State's applicable national legislation.

On-Site Activity

PQs that can only be assessed in a USOAP CMA on-site activity are shown in shaded rows in the PQ table.

Priority Protocol Questions (PPQs)

A subset of PQs is classified as Priority PQs or PPQs, which, if found not satisfactory, may indicate a lack of capability by a State to identify and/or resolve operational safety and fundamental accident investigation deficiencies effectively.

Annex

The term "Annex" in the USOAP CMA Protocol Questions stands for Annex to the Chicago Convention.

ICAO References

The ICAO references are classified as follows (shown here in alphabetical order): Chicago Convention (CC), ICAO Circular (Cir), ICAO Guidance Material (GM), Procedures for Air Navigation Services (PANS), Recommended Practice (RP), Regional Supplementary Procedures (SUPPS), and Standard (STD).

— — — — — — — —

Specific Guidelines for OPS

The OPS PQs are based primarily on the Chicago Convention, Annexes 6 and 18 to the Chicago Convention and relevant ICAO guidance documents.

Developed based on the air operator certification process, the OPS PQs are intended to be comprehensive and yet flexible enough to address the scope and complexity of the aviation activity in each State.

With respect to the procedures for the amendment of specific operating regulations, filing of differences and publication of "significant differences" in the Aeronautical Information Publication (AIP), the establishment of these procedures is covered by the PQs in LEG, while implementation is covered by the PQs in OPS.

The delegation of appropriate authority to the inspectors is an important issue as, in many cases, access to airport facilities may be limited by the airport authorities or the law or regulations do not provide inspectors with enough enforcement power. Inspector credentials should include reference to those articles in the legislation which establish the inspector's authority to inspect.

With respect to the OPS PQs on staffing, the evaluation of the flight operations inspection organization within the civil aviation authority (CAA) should establish, during the interviews, if a sufficient number of qualified inspectors is available to cover the certification and surveillance of all operational staff/areas (i.e. pilots, cabin crew, flight dispatchers and dangerous goods).

On CE-4, *Qualified technical personnel*, State qualification and experience requirements should be considered depending on the area of expertise (i.e. pilot, cabin attendant, ground inspector or others). Auditors should verify compliance with State requirements more so than with what ICAO outlines in Doc 8335 — *Manual of Procedures for Operations Inspection, Certification and Continued Surveillance.* As in other areas, training shall be based on a policy, a programme and a plan, including on-the-job training for all new inspectors. The OPS inspector training may have two aspects: One as pilot and the other as inspector. Recurrent training is not only on the types of aircraft supervised by the inspector, but also on administrative issues and other training, such as accident prevention, dangerous goods, and specialized training in areas including extended diversion time operations (EDTO), reduced vertical separation minimum (RVSM), CAT II or III, etc. All these must be supported by adequately organized training records.

Although most of the references point to Annex 6, Part I, *International Commercial Air Transport — Aeroplanes*, if similar requirements exist in Annex 6, Part III, *International Operations — Helicopters*, the PQs apply to these aircraft as well.

The PQs on CE-7, *Surveillance obligations*, and CE-8, *Resolution of safety issues*, are to be verified following the CAA's surveillance plan and programme, together with the CAA policies and procedures on surveillance. Inspection reports shall be verified, together with the establishment of a tracking system for deficiencies, to ensure timely resolution by the air operators or appropriate actions from the CAA.

Acronyms and Abbreviations

A = Annex
ACAS = Airborne Collision Avoidance System
AIC = Aeronautical Information Circular
AIP = Aeronautical Information Publication
AIRAC = Aeronautical Information Regulation and Control
Amdt = Amendment
AOC = Air Operator Certificate
App. = Appendix to an ICAO document
Art. = Article
ATC = Air Traffic Control
Att. = Attachment to an ICAO document
AWOP = All Weather Operations
C = Chapter
CAA = Civil Aviation Authority
CAT = Category
CBT = Computer Based Training
CC = Chicago Convention
CD = Compact Disk
CDL = Configuration Deviation List
CE = Critical Element
CFIT = Controlled Flight into Terrain
COMAT = Company Material
DG = Dangerous Goods
Doc = ICAO Document or Manual
EDTO = Extended Diversion Time Operations
EFB = Electronic Flight Bag
FRMS = Fatigue Risk Management System
FBS = Fixed Base Simulator
GM = ICAO Guidance Material
GPWS = Ground Proximity Warning System
IMC = Instrument Meteorological Conditions
MEL = Minimum Equipment List
MMEL = Master Minimum Equipment List
NOTAM = Notice to Airmen
NOTOC = Notification to the Captain
OJT = On-the-job Training
OPS = Aircraft Operations
OPSPEC = Operations Specifications
PANS-OPS = Procedures for Air Navigation Services – Aircraft Operations
PANS-ATM = Procedures for Air Navigation Services – Air Traffic Management
PBN = Performance-Based Navigation
PBN (AR) = PBN authorization required (AR)
PPQ = Priority Protocol Question
RNAV = Area Navigation
RNP = Required Navigation Performance
RVR = Runway visual range
RVSM = Reduced Vertical Separation Minima
SARPs = Standards and Recommended Practices
~~SMS = Safety Management System~~
SOPs = Standard Operating Procedures
STD = International Standard contained in an Annex to the Chicago Convention
SUPP = Supplement
TI = *Technical Instructions for the Safe Transport of Dangerous Goods by Air* (Doc 9284)
USOAP = Universal Safety Oversight Audit Programme

SUMMARY OF AMENDMENTS – OPS PQs

Note 1.— The PQs are listed here sequentially for convenience. This may differ from their order on the USOAP CMA Online Framework or in the following document.
Note 2.— The PQs in the shaded rows require a USOAP CMA on-site activity. For the remaining PQs, no on-site activity is required in most cases.

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
4.001	Has the State promulgated specific operating regulations to transpose the provisions of Annex 6 (Parts I, II and III)?	~~Verify that the latest amendments of aircraft operations regulations relate to the applicable title and date of the current amendments of Parts I, II and III of Annex 6.~~1) Confirm the title, date of promulgation and last amendment of all regulations related to aircraft operations. 2) Verify that the content of the regulations is consistent, sufficient and properly organized. 3) Confirm the transposition of the aircraft operations-related provisions of Annex 6 Parts I, II and III.	CC Art. 12 STD A19 3.2.2 GM Doc 8335 Part I, 2.2.1 & 3.4 Doc 9734 Part A, C2 & C3	Yes	CE-2
4.003	Has the State implemented procedures for amending its enabling aircraft operations regulations?	~~Verify:~~ ~~a)~~1) Review documented evidence of effective implementation of procedures for amending ~~OPS~~aircraft operations regulations. ~~b) timely amendment of~~ 2) Verify that regulations ~~following receipt of corresponding amendment to~~are amended in a timely manner whenever amendments to the related Annex ~~6, Parts I, II, and III.~~ ~~c)~~are received. 3) Verify the action taken by the State after receipt of the last amendments to Annex 6, Parts I, II and III. Notes to the auditor: 1) The establishment of amendment procedures is addressed in LEG PQ 1.009. 2) The implementation of amendment procedures in the area of dangerous goods is addressed in OPS	STD A19 3.2.2 GM Doc 9734 Part A, C3		CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		PQ 4.333.			
4.005	Has the State implemented procedures for identifying and notifying differences, if any, to ICAO?	~~Verify~~1) Review documented evidence of the effective implementation. ~~Note~~ 2) Confirm that: a) the differences between SARPs and the State legislation and practices are identified and notified to ICAO using the Compliance Checklist/Electronic Filing of Differences (CC/EFOD) system; and b) significant differences between SARPs/PANS/SUPPS and the State regulations and practices are identified and published in the AIP. Notes to the auditor: 1) The establishment of these procedures is addressed in LEG PQ 1.025. 2) States may also notify differences to ICAO using other means.	CC Arts. 37 & 38 GM Doc 9734 Part A, C3 Doc 10055	Yes	CE-2
4.015	Does the State have provisions in its legislation or regulations making it mandatory for any civil aircraft under its registry or operated by its air operators to comply with interception orders from other States?	Review legislation/regulations.	CC Art. 3 bis c) & Art. 12 STD A2 3.8.2 A6 Part I, App. 2, 2.1.32 Part III, App. ~~7~~8, 2.1.26		CE-1
4.017	Has the State established requirements regarding documents to be carried on board an aircraft in compliance with Article 29 of	Verify that the required documents to be carried on board include:	CC Art. 29 STD		CE-1

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	the Chicago Convention and Annex 6, Parts I, II, and III, as applicable?	a) ~~Certificate~~certificate of registration~~,~~; b) ~~Certificate~~certificate of airworthiness~~,~~; c) ~~Crew~~crew members' licences~~,~~; d) ~~Journey~~journey log book~~,~~; e) ~~Aircraft~~aircraft radio station licences~~,~~; f) ~~Passenger~~passenger manifest~~,~~; g) ~~Cargo~~cargo manifest~~,~~; h) ~~Certified~~certified true copy of the AOC~~,~~; i) ~~Operations~~operations specifications~~,~~; and j) ~~Document~~document attesting noise certification. Note to the auditor: The requirement on maintaining a journey log book is addressed in OPS PQ 4.018.	A6 Part I, 6.1.2, 6.13 & 11.4 Part II, Section 2, 2.4, 2.8.2 & 3.6 Part III, Section II, 4.1.2 & 9.4 A16 Vol I, Part II, 1.4 GM Doc 9734 Part A, C3		
4.018	Does the State require that a journey log book be maintained in respect of every aircraft engaged in international navigation?	1) Review legislation/regulations to maintain a journey log book. 2) Review examples of journey log books.	CC Art. 34 STD A6 Part I, 11.4 Part III, Section II, 9.4		CE-1
4.021	Has the State established an organizational structure for aircraft operations, such as a directorate/department/division/section/office for the certification of commercial air transport operations?	1) Confirm existing approved organizational structure for the CAA and aircraft operations directorate, including lines of responsibility. 2) Confirm the inclusion of Dangerous Goods. 3) Verify that an organizational structure has been: -a) established with defined lines of responsibility; -b) documented; and -c) approved.	STD A6 Part I~~,~~, 4.2.1.8 & App. 5, 3.1 Part III~~,~~, Section II, 2.2.1.8 & App. 1, 3.1 GM Doc 8335 Part I, 5.1 Doc 9734 Part A, C3		CE-3
4.023	Has the State implemented documented procedures for coordination with other	1) Verify that the organizational structure identifies the authority responsible for the issuance	STD A6	Yes	CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	relevant areas, including personnel licensing, airworthiness, legal, financial etc., on the air operator certification processes and surveillance activities?	of licences, certificates, approval, authorizations and surveillance. 2) Verify that the operations inspectors manual contains processes and procedures for coordination on all certification and surveillance activities involving: a) ~~Operations~~operations; b) ~~Airworthiness~~airworthiness; c) ~~Personnel~~personnel licensing; and d) ~~Other~~other entities, as applicable. 3) Verify implementation.	Part I, 4.2.1.8 & App. 5, 5.1 Part III, Section II, 2.2.1.8 & App. 1, 5.1 GM A6 Part I, Att. ~~D~~B, 2.4 Part III, Att. ~~D~~C, 2.4 Doc 8335 Part I, 5.1 Doc 9734 Part A, C3		
4.025	Does the flight operations inspection organization have sufficient human resources to carry out its functions and mandate?	1) Review methodology established for determining staffing needs. 2) Review ability to attract new inspectors as well as existing vacancies and level of turnover in past years. 3) Review ability to carry out all safety oversight related tasks, including: a) reviewing and revising regulations~~,~~; b) training technical staff~~,~~; c) developing guidance material~~,~~; d) issuing approvals~~,~~; e) conducting surveillance~~,~~; and f) resolving identified safety concerns. 4) Consider the resources that may be required for the area of Dangerous Goods.	STD A6 Part I; App. 5, 3.2 GM Doc 8335 Part I, 5.3 Doc 9734 Part A, C3	Yes	CE-3
4.027	Are all the functions and responsibilities of the flight operations inspection organization clearly defined?	Review document detailing functions and responsibilities for inclusion of the following tasks:	STD A6 Part I; App. 5, 3.1		CE-3

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		a) ~~Certification~~certification process of air operators~~,~~; b) ~~Issuance~~issuance of AOC and operations specifications~~,~~; c) ~~Issuance~~issuance of specific approvals (EDTO, PBN authorization required (AR), RVSM, AWOP, EFB, and transport of dangerous goods by air~~),~~); d) ~~Development~~development and/or revision of specific operating regulations~~,~~; e) ~~Certification~~certification of general aviation operations~~,~~; and f) ~~Supervision~~supervision of commercial air operators and legal action/information regarding deficiencies.	GM Doc 8335 Part I, C5, 5.2 ~~& 6.2~~ Doc 9734 Part A, C3		
4.031	Have job descriptions been developed for technical staff and key management personnel of the: 1) ~~Flight~~flight operations inspection organization; and 2) ~~Authority~~authority responsible for transport of dangerous goods by air?	Verify that job descriptions have been developed for: a) ~~Technical~~technical staff; b) ~~Management~~management personnel; and c) ~~Dangerous~~dangerous goods personnel.	STD A6 Part I, 4.2 Part III, Section II, 2.2 GM Doc 9734 Part A, C3		CE-3
4.033	Has the flight operations inspection organization established appropriate minimum qualifications for: a) flight operations inspectors; b) other operations inspectors; and c) dangerous goods inspectors?	Verify that minimum qualifications include: a) specified number of years in air transport operations~~,~~; b) to be at least as qualified as the personnel to be inspected or supervised~~,~~; and c) experience compatible with the activities that they are authorized to certify or supervise.	STD A6 Part I; App. 5, ~~5.~~3.1 Part III; App. 1, ~~5.~~3.1 GM Doc 8335 Part I, ~~5.2 &~~ 6.2 Doc 9734 Part A, C3	Yes	CE-4
4.035	Have operations inspectors been issued credentials to facilitate their access to	Review credentials to ensure that they include the following:	STD A6		CE-3

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	facilities, aircraft, and certification and licensing documentation when carrying out inspection and enforcement duties?	a) reference to empowering legislation~~,~~; b) methods established to control currency of credentials~~,~~; and c) inspector's photo.	Part I; App. 5, 1 & 3.4 Part III; App. 1, 1 & 3.4 GM Doc 9734 Part A, C3		
4.039	If the flight operations inspection organization delegates its duties to other entities, i.e. CAA divisions, other State bodies, Contracting States, regional organizations, private agencies or individuals (e.g. designated examiners ~~for flight and cabin crew checks~~), have requirements for competency been established?	Verify that: a) ~~Competency~~competency requirements have been established for each delegated authority~~.~~; b) ~~Appropriate~~appropriate minimum qualifications and experience requirements have been established for each delegated authority.	STD A6 Part I, 4.2 Part III, Section II, 2.2 GM Doc 8335 Part I, 5.3.3 & 5.3.4 Doc 9734 Part A, C3		CE-4
4.041	If the flight operations inspection organization delegates its duties to other entities, i.e. CAA divisions, State bodies, Contracting States, regional organizations, private agencies or individuals (e.g. designated examiners ~~for flight and cabin crew checks~~), are the delegated tasks clearly defined?	1) Verify that there is documentation that clearly defines delegated tasks (e.g. letter of agreement, letter of designation of examiners, etc.). 2) Verify legal basis of each delegation.	STD A6 Part I, 4.2 Part III, Section II, 2.2 GM Doc 8335 Part I, 5.3 Doc 9734 Part B, 3.3		CE-3
4.043	If the flight operations inspection organization delegates any of its inspection or supervision responsibilities ~~(such as competency checks, route checks, instrument ratings checks, conversion checks or upgrading checks)~~ to designated inspectors and/or examiners of an AOC holder issued by the State, has it also established and implemented a delegation procedure?	1) Verify that a delegation procedure has been established and includes: a) ~~Selection~~selection criteria; b) ~~Examinations~~examinations or tests; and c) ~~Application~~application process. 2) Review evidence to confirm effective implementation.	STD A6 Part I, 4.2 Part III, Section II, 2.2 GM Doc 8335 Part I, 5.3.3 & 5.3.4 Doc 9734 Part A, C3		CE-3

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
4.045	If the flight operations inspection organization delegates any of its inspection or supervision responsibilities ~~(such as competency checks, route checks, instrument ratings checks, conversion checks or upgrading checks)~~ to designated inspectors and/or examiners of an AOC holder issued by the State, has it also established and implemented procedures for renewal of approval for designated examiners?	1) Verify that the approval specifies the duration of the designation. 2) Verify that conditions for renewal are established and specified (e.g. minimum activity, training, etc.). 3) Review evidence to verify effective implementation of the renewal procedures for the approval of designated examiners.	STD A6 Part I, 4.2 Part III, Section II, 2.2 GM Doc 8335 Part I, 5.3.3 & 5.3.4		CE-3
4.047	If the flight operations inspection organization delegates any of its inspection or supervision responsibilities ~~(such as competency checks, route checks, instrument ratings checks, conversion checks or upgrading checks)~~ to designated inspectors and/or examiners of an AOC holder issued by the State, has it also established and implemented a surveillance system?	Verify that: a) ~~A~~a surveillance system has been established and is being implemented~~.~~; b) ~~The~~the surveillance activities undertaken conform to the established system~~.~~; and c) ~~The~~the system includes on-the-job oversight activities of designated examiners. Note to the auditor: Surveillance activities include scheduled, unscheduled and unannounced activities.	STD A6 Part I, 4.2 Part III, Section II, 2.2 GM Doc 8335 Part I, 5.3.3 & 5.3.4 Part IV, 2.6		CE-7
4.049	If the flight operations inspection organization delegates any of its inspection or supervision responsibilities ~~(such as competency checks, route checks, instrument ratings checks, conversion checks or upgrading checks)~~ to designated inspectors and/or examiners of an AOC holder issued by the State, has it also established and implemented a system to resolve deficiencies or issues related to the conduct of delegated tasks?	1) If no surveillance is performed (see OPS 4.047), then this question cannot be satisfactory. 2) Verify that a system has been established and implemented to resolve deficiencies and issues related to the conduct of delegated tasks. 3) Review evidence to confirm effective implementation.	STD A6 Part I; App. 5, 8 GM Doc 8335 Part I, 5.4		CE-8

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
4.051	Has the flight operations inspection organization established a formal training programme for operations inspectors and dangerous goods inspectors, which describes the type of training to be provided?	1) Verify that each training programme includes: a) ~~Initial~~initial training; b) OJT; c) ~~Recurrent~~recurrent training; d) ~~Specialized~~specialized training requirements; and e) ~~Minimum~~minimum duration for each type of training. 2) Confirm that specialized training is provided to: a) ~~Ground~~ground operations inspectors~~,~~; b) ~~Flight~~flight operations inspectors~~,~~; c) ~~Cabin~~cabin safety inspectors~~,~~; and d) ~~Dangerous~~dangerous goods inspectors.	STD A6 Part I; App. 5, 4 Part III; App. 1, 4 GM Doc 8335 Part I, 6.3 Doc 9734 Part A, C3		CE-4
4.053	Does the flight operations inspection organization establish and implement a periodic training plan detailing and prioritizing the type of training, including OJT, to be provided during a specified timeframe?	1) Review most recent training plan. 2) Verify that the most recent training plan includes: ~~—~~a) details of the type of training; ~~—~~b) training priorities; and ~~—~~c) timeframe of the plan. 3) The training plan should outline the timetable for implementation of training programme for each staff member during a specified timeframe. 4) Check training files for course certificates. 5) Verify that the type and frequency of training successfully completed (i.e. initial, recurrent, specialized and OJT) are sufficient for each technical staff to acquire/maintain the required level of knowledge, skills, competence and qualifications corresponding to the assigned duties and responsibilities. 6) Verify that the training is implemented	STD A6 Part I, 4.2 & App. 5, 4 Part III, Section II, 2.2 & App. 1, 4 GM Doc 8335 Part I, 6.3 Doc 9734 Part A, C3	Yes	CE-4

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		appropriately for operations and dangerous goods inspectors. 7) Verify that: —a) ~~There~~there is a requirement for OJT~~.~~ —; and b) OJT is provided by an experienced, senior inspector.			
4.059	Do the flight operations inspection organization and the entities responsible for the transport of dangerous goods by air have a system for maintaining training records of its technical staff?	1) Review requirements/instructions for the establishment and maintenance of training records. 2) Review the system in place. 3) Sample training records.	STD A6 Part I, 4.2 Part III, Section II, 2.2 GM Doc 9734 Part A, C3		CE-4
4.071	Do operations and dangerous goods inspectors have access to up-to-date operational documentation and information to support the certificates/approvals issued?	1) Verify accessibility of documents, such as: a) operations manual~~,~~; b) aircraft flight manual~~,~~; c) Master Minimum Equipment List (MMEL~~),~~); d) loading manual~~,~~; e) weight and balance manual~~,~~; and f) dangerous goods manuals/programme. 2) Documents may be available on the Internet, in paper copies, CDs, etc. 3) In all cases, check document availability and the system used to keep them up to date.	STD A6 Part I, 4.2 Part III, 2.2 GM Doc 9734 Part A, C3		CE-5
4.073	Are ICAO documents and other technical publications readily available to the technical and administrative staff of the flight operations inspection organization?	Verify accessibility of documents, such as: a) State laws and regulations~~,~~; b) orders and instructions~~,~~; c) current copy of Annexes 6, Parts I, II and III, 18 and the Technical Instructions for the Safe	STD A6 Part I, 4.2 Part III, 2.2 GM		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		Transport of Dangerous Goods by Air (Doc 9284~~),~~;) and d) Copies of ICAO guidance material (i.e. Doc 8335, Doc ~~937~~10153, etc.) Note to the auditor: Check for field/regional offices as well as Headquarters.	Doc 9734 Part A, C3		
4.074	Is there technical documentation available for the technical staff of the flight operations inspection organization or another method to ensure receipt, control and distribution of the necessary technical documentation?	Evaluate: a) document control system~~,~~; and b) method to determine currency of documents.	STD A6 Part I, 4.2 Part III, 2.2 GM Doc 9734 Part A, C3		CE-5
4.075	Are operations inspectors provided with comprehensive procedures and checklists to assist them in carrying out their functions in a standardized and effective manner?	1) Verify that procedures and checklists are available to address all procedures not addressed in other protocols: ~~-~~a) ~~Operations~~operations organization; ~~-~~b) ~~Operations~~operations inspectors' duties, credentials and authority; ~~-~~c) ~~Certification~~certification process; ~~-~~d) ~~Issuance~~issuance of operations specifications; ~~-~~e) ~~Guidelines~~guidelines on assessment of application forms; ~~-~~f) ~~Guidelines~~guidelines on renewal, suspension and revocation of AOCs and various authorizations; ~~-~~g) ~~Surveillance~~surveillance policies and programme; ~~-~~h) ~~Quality~~quality assurance; ~~-~~i) ~~Follow~~follow up on discrepancy and enforcement action; ~~-~~j) ~~Safety~~safety management programme; and	STD A6 Part I, App. 5, 5 Part III, App. 1, 5 GM Doc 8335 Part I, 5.4 Doc 9734 Part A, C3	Yes	CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		~~-~~k) ~~Guidelines~~guidelines on resolution of safety issues. 2) Verify that there is a mechanism to approve the procedures and to ensure their currency. Note to the auditor: Procedures may be compiled into an inspector's handbook.			
4.091	Does the flight operations inspection organization provide sufficient information (e.g. booklet, pamphlet, circular, web page, etc.) to a prospective air operator regarding the regulations and process for obtaining an AOC and the corresponding operations specifications?	Verify that applicable pamphlets, web page, hard copies, etc. (standard information package) are available for: a) amendment to an AOC; b) amendment to operations specifications; c) authorizations or limitations; d) AOC application; or e) specific approval to transport dangerous goods.	STD A6 Part I, 4.2 Part III, Section II, 2.2 GM Doc 8335 Part III, 1.3 & 2.1 Doc 9734 Part A, C3		CE-5
4.093	Is there a formal application form that a prospective air operator must complete and submit in order to obtain an AOC, operations specifications and/or special authorizations?	Verify that applicable forms are available and ensure that they contain at least the following information: a) main base of operations; b) organizational structure; c) type of operation (passenger, cargo, etc.); d) specific approvals requested (AWOP, RVSM, PBN authorization required (AR), Dangerous Goods, EDTO, EFB, etc~~.~~).; e) type of aircraft; f) arrangements for crew and ground personnel training; g) proposed routes and areas of operations, destination and alternate aerodromes; h) maintenance arrangements; and	STD A6 Part I; App. 5, 6 Part III; App. 1, 6 GM Doc 8335 Part III, 3.1 Doc 9734 Part A, C3		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		i) financial data and a business plan.			
4.101	As part of a preliminary assessment of an applicant's technical fitness for an AOC, is there a general review of the procedures, practices and methods adopted that are detailed in the operations manual, air operator's maintenance control manual, training manuals, etc.?	1) Verify that the certification process and procedures include an assessment of the applicants' technical fitness. 2) Verify that the operations inspectors have guidance material, manuals, checklists, etc. to use in assessing the applicants' technical fitness. 3) Verify implementation by sampling records of first meetings and letters to the applicants, showing first review of the documents submitted or asking for missing information.	STD A6 Part I, 4.2; App. 5, 6 Part III, Section II, 2.2; App. 1, 6 GM A6 Part I, Att. ~~D~~B Part III, Att. ~~D~~C Doc 8335 Part III, C3 Doc 9734 Part A, C3		CE-6
4.103	Is the organizational structure of an AOC applicant reviewed to ensure that: a) duties, responsibilities and authorities are clearly defined~~,~~; and b) functional tasks and lines of reporting are clearly delineated and duly documented?	1) Verify that applicable operations inspectors' guidance material, manuals, etc. have been established and implemented. 2) Review exchange of letters with the applicant.	STD A6 Part I, 4.2.1.3 Part III, Section II, 2.2.1.3 GM Doc 8335 Part II, C2 Part III, C5		CE-6
4.107	Has the State effectively implemented procedures to grant exemptions from the regulations for an AOC to air operators, using formal procedures that take into consideration the impact to safety?	1) Verify effective implementation of the procedures. 2) Verify that the impact on safety is considered. 3) Verify notification to foreign States if an AOC holder does not comply with Annex 6 standards. 4) Sample exemptions granted. Notes to the auditor: 1) The term "exemptions" also includes exceptions, deviations, variations and prolonged	STD A6 Part I, 4.2 Part III, Section II, 2.2 GM Doc 9734 Part A, C3	Yes	CE-6

		implementation by verifying air operators' fatigue management practices.			
4.254	If State approves variations to the prescriptive fatigue management regulations, does it do so according to an established process?	1) Verify implementation of the operations inspectors' procedures to issue a variation based on: -a) ~~An~~an assessment by the regulator of the comprehensive risk assessment provided by the operator to support their application for a variation; and -b) ~~An~~an application that is within the definition of the "exceptional circumstances" determined by the regulator. 2) Confirm effective implementation by verifying records of variation approval. 3) Verify inclusion of the risk assessment results in the records. 4) During the industry visit, confirm effective implementation by verifying that the air operator's variation is in accordance with the approval issued by the operations organization.	STD A6 Part I, 4.10.3 GM Doc 9966 C4 & App. C		CE-6
4.255	If the State approves the use of a Fatigue Risk Management System (FRMS) allowing an operator to move outside of prescribed limits, has the State promulgated FRMS regulations?	1) Verify that FRMS regulations have been promulgated for pilots and for cabin crews. 2) Verify that the content of the FRMS regulations complies with the ICAO requirements.	STD A6 Part I, 4.10.1, 4.10.5 & App. 7 GM Doc 9966 C1, C5 & App. A		CE-2
4.256	If the State authorizes air operators to use Fatigue Risk Management System (FRMS),	1) Verify that there is a documented FRMS approval process.	STD A6		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	has the flight operations inspection organization established an approval process?	2) Verify that the authority requires the operator to identify maximum values for flight times and/or flight duty periods and duty periods as well as minimum values for rest periods. 3) Verify that the approval process includes the need to define a trial period. 4) Verity that the requirements for obtaining approval are available to operators.	Part I, 4.10.4; App. 7 GM Doc 9966 C5 & C6		
4.257	If the State authorizes air operators to use the Fatigue Risk Management System (FRMS), does the flight operations inspection organization follow the established FRMS approval process?	1) Verify that the inspectors reviewed and monitored the operator's progress during the preparation and trial of the FRMS, as part of the FRMS approval process. 2) Verify that approval was granted based on: a) it being applied only in those particular operations, routes or trips defined~~.~~; and b) evidence that the FRMS delivered a level of safety acceptable to the regulator. 3) Verify that the authority allows operators to move outside of prescriptive limitations only under the following conditions: a) in accordance with approved variations; b) during a defined trial period of an FRMS as part of FRMS approval process; and c) in accordance with an approved FRMS. 4) Confirm effective implementation of the approval process by reviewing the FRMS approval documentation of at least one authorized air operator.	STD A6 Part I, 4.10.2, 4.10.4, 4.10.5, 4.10.6 & App. 7 GM Doc 9966 C5 & C6		CE-6
4.259	If the State authorizes air operators to use Fatigue Risk Management System (FRMS),	1) Verify inspectors' procedures and checklists for FRMS audit/inspection.	STD A6		CE-7

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	does the flight operations inspection organization implement an effective FRMS surveillance programme?	2) Check that records are maintained by the air operators and reviewed by the authority. 3) Review surveillance programme to ensure that air operators are visited at least once a year. 4) Verify that the State monitors the FRMS performance indicators agreed upon with the air operator. 5) Sample completed inspection records/checklists to ensure that all aspects are checked.	Part I, 4.10.~~4~~8; App. 5, 7 GM Doc 9966 C6		
4.260	If the State authorizes air operators to use Fatigue Risk Management System (FRMS), has the flight operations inspection organization established and implemented enforcement procedures in case deficiencies are identified in an FRMS?	1) Verify that there are established processes allowing for different levels of actions to be taken by the authority, from warnings to withdrawal of FRMS approval. 2) Verify implementation by sampling completed inspection records to ensure that appropriate actions were taken in case deficiencies are identified.	STD A6 Part I, 4.10.8 & App. 5, 8 GM Doc 9966 C6		CE-8
4.261	Does the flight operations inspection organization ensure that the air operator has established an organizational and management system for the operational control of all flights in accordance with specific operating regulations applicable to aircraft operations with the related policies, processes, standards and procedures?	1) Verify that applicable operations inspectors' guidance material, manuals, checklists, etc. have been established and implemented. 2) Sample some air operators' manuals to confirm implementation and compliance with the following: a) ~~Establishment~~establishment of operational control system including:	STD A6 Part I, 3.1.3, 3.1.4, 3.5, 4.1, 4.2.1.3 & 6.18 Part III, Section II, 1.1.3, 1.1.4 & 2.2.1.3 GM Doc 8335	Yes	CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		i) aircraft tracking and location of an aeroplane in distress; and ii) risk management (assessment and mitigations) when intending to operate over or near conflict zones; b) ~~Definition~~definition of responsibilities; c) ~~Definition~~definition of authorities; d) ~~Policies~~policies; e) ~~Processes~~processes; f) ~~Standards~~standards; and g) ~~Procedures.~~ procedures. 3) Verify that for the: a) ~~Initiation~~initiation; b) ~~Continuation~~continuation; c) ~~Diversion~~diversion; and d) ~~Termination~~termination of flights, the operations manual contains the functions and responsibilities of: i) ~~Flight~~flight crew; and ii) ~~Flight~~flight operations officers/flight dispatchers. 4) Verify that the authority approves the method of control and supervision of flight operations when it is used.	Part III, 5.3.4 Doc 10084		
4.271	Does the flight operations inspection organization ensure that the air operator has established policy and procedures for flight crew to record and report on: a) ~~Routine~~routine meteorological observation during: ~~-~~i) en-route~~,~~; and ~~-~~ii) climb-out phases of the flight; and b) ~~Special~~special and other non-routine	1) Verify that applicable operations inspectors' guidance material, manuals, checklists, etc. have been established and implemented. 2) Sample some air operators' manuals to confirm implementation and compliance.	STD A3 5.1, 5.2, 5.3, 5.5, 5.6 & 5.9 A6 Part I, 4.4.2 GM Doc ~~937~~10153		CE-6

	observations during any phase of the flight; and c) ~~Volcanic~~volcanic activity?				
4.281	Does the flight operations inspection organization ensure that the air operator makes available to flight crew and operational personnel, at any aerodrome authorized in its AOC and corresponding operations specifications, pre-flight aeronautical information essential for the safety (e.g. Notice to Airmen (NOTAM), AIP~~, Aeronautical Information Circular (AIC),~~ and Aeronautical Information ~~Regulation and Control (AIRAC~~Circular (AIC)), regularity and efficiency of air navigation?	1) Verify that applicable operations inspectors' guidance material, manuals, checklists, etc. have been established and implemented. 2) Sample some air operators' manuals to confirm implementation and compliance with the following: ~~-~~a) ~~Provision~~provision of pre-flight information; and ~~-~~b) ~~That~~that information provided includes: i) ~~Element~~selements of the integrated Aeronautical Information Package; ii) ~~Maps~~maps and charts; iii) NOTAMs; iv) AIP; ~~v) AIC;~~ and ~~vi) AIRAC.~~ v) AIC. 3) Review evidence during industry visit to confirm implementation.	STD A6 Part I, 4.1 & 4.3 Part III, Section II, 2.1 & 2.3 A15 ~~8.1~~6.2		CE-6
4.301	Does the flight operations inspection organization approve the method for determining aerodrome operating minima for aeroplane operators?	1) Verify that applicable operations inspectors' guidance material, manuals, checklists, etc. have been established and implemented. 2) Sample some air operators' manuals to confirm implementation and compliance.	STD A6 Part I, 4.2.8 & App. 2, 2.1.7 GM Doc 9365		CE-6
4.303	Does the flight operations inspection organization approve the method for	1) Verify that applicable operations inspectors' guidance material, manuals, checklists, etc. have been established and implemented.	STD A6 Part III, Section II,		CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	determining heliport operating minima for helicopter operators?	2) Sample some air operators' manuals to confirm implementation and compliance.	2.2.8 ~~GM~~ ~~A6~~ ~~Part III,~~ & App. ~~7~~8, 2.1.6 GM Doc 9365		
4.321	Does the flight operations inspection organization ensure that the air operator has established an organizational structure which includes the responsibilities and authority for the management of all ground handling functions prior to the issuance of an AOC?	1) Verify implementation of operations inspectors' procedures to confirm air operator's establishment of an organizational structure for ground handling functions, with description of related responsibilities and authorities. 2) Verify implementation by checking operations manuals for: a) ~~Ground~~ground handling structure~~,~~; b) ~~Lines~~lines of responsibilities associated with the following, when applicable: i) ~~Ramp~~ramp operations~~,~~; ii) ~~Passenger~~passenger services~~,~~; iii) ~~Baggage~~baggage services~~,~~; iv) ~~Cabin~~cabin services~~,~~; v) ~~Weight~~weight and balance control~~,~~; vi) ~~Ground~~ground support equipment~~,~~; and vii) ~~Fuel~~fuel services.	STD A6 Part I, 4.2.1.3~~;~~ & App. 2, 2.1.9 Part III, Section II, 2.2.1.3 ~~GM~~ ~~A6~~ ~~Part III,~~ & App. ~~7~~8, 2.1.8 GM Doc 8335 Part I, 2.2.3	Yes	CE-6
4.323	Does the flight operations inspection organization ensure that the air operator has established aircraft ground handling training requirements, subcontracting policies, handling processes, procedures and practices for all ground handling operations?	1) Verify implementation of the operations inspectors' procedures as part of the certification process to ensure that air operator's procedures include the following for aircraft ground handling: a) training requirements; b) subcontracting policies; c) handling processes; and	STD A6 Part I, 4.2.1.~~4~~3 & App. 2, 2.1.9 Part III, Section II, 2.2.1.~~4~~ ~~GM~~ ~~A6~~		CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		d) procedures and practices for all ground handling operations. 2) Review evidence to confirm effective implementation (e.g. operations manual, weight and balance manual, handling manual and training programme for ground handlers).	~~Part III,~~3 & App. ~~7~~8, 2.1.8 GM Doc 8335 Part III, ~~7.6.1~~5.4		
4.325	Does the flight operations inspection organization ensure that the air operator maintains permanently its ground handling responsibility, when all or part of the functions and tasks related to ground handling services have been contracted to a service provider?	1) Verify the surveillance policy and programme. 2) Verify that operations inspectors' procedures and checklists are used for inspection of ground handling responsibilities. 3) Review completed operations inspectors' checklists to confirm effective implementation of surveillance programme.	STD A6 Part I, 4.2.1.3; App. 2, 2.1.9 & App. 5, 7 Part III, Section II, 2.2.1.43 & App. 1, 7 GM ~~A6~~ ~~Part III, App. 7, 2.1.8~~ Doc 8335 Part ~~III, 5.3.13~~ IV		CE-7
4.331	Has the State promulgated regulation on the transport of dangerous goods by air to transpose the provisions of Annex 18?	~~1) Verify dangerous goods regulations.~~ ~~2~~1) Confirm the title, date of promulgation and last amendment of all regulations related to dangerous goods. 2) Verify that the content of the regulations is consistent, sufficient and properly organized. 3) Confirm the transposition of the dangerous goods -related provisions of Annex 18. 4) Verify if the State has incorporated the provisions of Annex 18 and the Technical Instructions (TI or Doc 9284) either directly or by reference.	STD A18 2.2.1 A19 3.2.2 GM Doc 9284 (TI) Doc 8335 Part I, 2.2 & 3.1 Doc 9734 Part A	Yes	CE-2
4.332	Has the State notified ICAO of variations from the Technical Instructions (TI or Doc 9284)?	1) Verify the process in place for such notification. 2) If the State's policy is to be in full compliance	STD A18		CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		with the TI, it is Satisfactory.	2.5.1		
4.333	Has the State implemented procedures to amend its enabling regulations in the area of dangerous goods subsequent to an Annex 18 amendment?	1) Review documented evidence of the effective implementation~~.~~ of procedures for amending dangerous goods regulations. 2) Verify that ~~amendments of~~ regulations are ~~effected~~amended in a timely manner whenever ~~an~~amendments to the related Annex ~~18 amendment~~ or Technical Instructions (TI or Doc 9284) ~~amendment is~~are received. 3) Verify the action taken by the State after receipt of the last amendments to Annex 18. Note to the auditor: The establishment of amendment procedures is addressed in LEG PQ 1.009.	~~CC~~ ~~Arts. 37 & 38~~ STD A19 3.2.2 GM Doc 9284 (TI) Doc 9734 Part A, C3		CE-2
4.334	Has the State implemented procedures for identifying and notifying to ICAO differences between ICAO Standards and national regulations in the area of dangerous goods, if any?	1) Review documented evidence of the effective implementation. 2) Confirm that: a) the differences between SARPs and the State legislation and practices are identified and notified to ICAO using the Compliance Checklist/Electronic Filing of ~~the procedures~~ ~~Note~~Differences (CC/EFOD) system; and b) significant differences between SARPs/PANS/SUPPS and the State regulations and practices are identified and published in the AIP. Notes to the auditor: 1) The establishment of these procedures is	CC Arts. 37 & 38 STD A19 3.2.2 GM Doc 9284 (TI) Doc 9734 Part A, C3 Doc 10055	Yes	CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		addressed in LEG PQ 1.025. 2) States may also notify differences to ICAO using other means.			
4.335	Has the State designated and specified to ICAO the appropriate national authority responsible for the transport of dangerous goods by air?	1) Cross-check State Aviation Activity Questionnaire (SAAQ) and confirm with ICAO. 2) Required even if State does not issue approvals for the transport of dangerous goods. 3) If multiple authorities have responsibilities, identify them individually.	STD A18 2.7 GM Doc 9284 Supp (TI SUPP) Part S-1, C1, 1.1.1		CE-3
4.337	Are all the functions and responsibilities of the entities/individuals responsible for dangerous goods clearly defined?	Review documents detailing functions and responsibilities for inclusion of the following tasks: a) ~~Development~~development and/or revision of specific regulations; b) ~~Issuance~~issuance of exemptions and approvals related to dangerous goods; c) ~~Issuance~~issuance of specific approvals to air operators to transport dangerous goods by air; d) ~~Review~~review of dangerous goods training programmes of all air operators; e) ~~Review~~review of dangerous goods procedures for all air operators; f) ~~Review~~review of dangerous goods training programmes for all entities on the ground involved in the transport of dangerous goods by air; g) ~~Inspection~~inspection of air operators related to	STD A6 Part I, 4.2.1.8 & App. 5, 3.1 Part III, Section II, 2.2.1.8 & App. 1, 3.1 GM Doc 8335 Part I, C5, 5.2 & 5.4 Doc 9734 Part A, C3		CE-3

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		dangerous goods; h) ~~Inspections~~inspections of shippers and handling companies related to dangerous goods; i) ~~Gathering~~gathering dangerous goods incidents and accidents information; and j) ~~Certification~~certification of general aviation operations.			
4.343	Has the State established procedures to: a) ~~Approve~~approve the dangerous goods training programme of AOC holders; and b) ~~Grant~~grant specific approval to transport dangerous goods by air?	Review the dangerous goods inspectors' procedures and ensure that they include: a) ~~Review~~review of AOC holder's dangerous goods procedures; b) ~~Training~~training programmes for all AOC holders~~,~~; and c) ~~On~~on-site inspections before granting of specific approvals to applicants.	STD A6 Part I~~, App. 5, C4~~, 4.2.1.3 & 14.3 Part III, Section II~~, App. 1, C4~~ ~~A18~~ ~~C10 & C11~~ ~~GM~~ ~~Doc 9284 (TI)~~ ~~4.1.2~~ ~~Doc 8335~~ ~~Part IV~~, 2.~~8~~ 2.1.3 & 12.4		CE-5
4.345	Does the State grant specific approvals for the transport of dangerous goods by air?	1) Review procedures and process for granting specific approvals. 2) Review records of specific approvals for transport of dangerous goods.	STD A6 Part I, 4.2.1.3 & 14.3 Part III, Section II, 2.2.1.3 ~~A18~~ ~~2.2 & 2.3~~ & 12.4	Yes	CE-6
4.347	Does the organization/individual responsible for the transport of dangerous goods by air ensure that:	1) Review inspectors' procedures for issuance of specific approvals to transport dangerous goods.	STD A18 8.1 & 8.2		CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	a) ~~Authorized~~authorized air operators have developed and use an acceptance checklist to prevent acceptance of dangerous goods for transport by air unless they are accompanied by a completed dangerous goods transport document~~,~~; and b) ~~Their~~their marking, package, overpack or freight container have been inspected in accordance with the acceptance procedure contained in the Technical Instructions (TI or Doc 9284)?	2) Sample completed checklists used by authorized air operators.	GM Doc 9284 (TI)		
4.349	Does the organization/individual responsible for the transport of dangerous goods by air ensure that authorized air operators will not load dangerous goods into the aircraft unless the appropriate loading, segregation and inspection for damage or leakage procedures are followed?	1) Review authorization process and inspection procedures for issuance of specific approvals to transport dangerous goods. 2) Sample completed checklists or other mechanisms used by authorized air operators.	STD A18 8.3, 8.4 & 8.7 GM Doc 9284 (TI)		CE-6
4.351	Does the organization/individual responsible for the transport of dangerous goods by air ensure that: a) the air operator of an aircraft in which dangerous goods are carried provides the pilot-in-command with written information (e.g. Notification to Captain or NOTOC); and b) the written information is retained on the ground and readily accessible to the aerodromes of last departure and next	1) Review authorization process and inspection procedures for issuance of specific approvals to transport dangerous goods by air. 2) Sample completed checklists or other documented mechanisms used by authorized air operators. 		intend to transport dangerous goods.			
4.367	Does the flight operations inspection organization or the organization/individual responsible for the transport of dangerous goods by air ensure that dangerous goods procedures and training programmes are incorporated in either the operations manual or a separate document as part of the flight safety documents system?	1) Verify regulations. 2) Review certification process and inspectors' procedures. 3) Sample operations manual or separate document as part of flight safety documents system. 4) Sample training programmes and records during the industry visit. Note to the auditor: This PQ is for air operators applying for a specific approval to transport dangerous goods.	STD A6 Part I, 9.3~~,~~ & 12.4~~;~~ ~~App. 2, 2.1.35 & 2.4~~ ~~GM~~ ~~A6~~ Part ~~I, Att. F~~ III, Section II, 7.3 & 10.3 GM Doc ~~9376~~10153		CE-6
4.369	Does the organization/individual responsible for the transport of dangerous goods by air ensure that the air operator has established procedures to convey information to emergency services and to appropriate authorities in the event of an incident or accident of an aircraft carrying dangerous goods?	1) Review authorization process and inspector's procedures. 2) Sample documented procedures in operations manual. 3) Confirm knowledge of these procedures during industry visit. Note to the auditor: This PQ is for air operators applying for a specific approval to transport dangerous goods.	STD A6 Part I~~;~~, 4.2.3.1 & App. 2, 2.1.35 Part III, Section II, 2.2.3.1 & App. 8, 2.1.28 A18 9.6.2 GM Doc 9481		CE-6
4.371	Has the organization/individual responsible of the transport of dangerous goods by air established and implemented: a) ~~Procedures~~procedures to take appropriate actions in case of violation (e.g. enforcement and penalties), and	1) Review the system to inform the entities inspected of the deficiencies detected, how their corrective action plan is assessed, etc. 2) Sample cases of discrepancies or violations and the actions taken by the State.	STD A18 11.1 & 11.3		CE-8

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	b) ~~A~~a system to track identified deficiencies and to ensure timely resolution?	Note to the auditor: This PQ is applicable to all entities, including air operators.			
4.373	Has the State established and implemented a process for reporting dangerous goods incidents and accidents, with procedures for investigating and compiling information concerning accidents or incidents involving dangerous goods, which occur in its territory and which involve the transport of dangerous goods originating in or destined for another State?	1) Review the incident reporting system (this includes undeclared, misdeclared and unintentional release of dangerous goods) in place for investigation and for compiling information. 2) See definition of dangerous goods incident. 3) Review promotion done by the State to ensure that such incidents are reported.	STD A18 C12 GM Doc 9284 Supp (TI SUPP) Part S-7, C4		CE-8
4.383	Has the State established procedures for the acceptance or approval of aircraft leasing arrangements?	1) Verify procedures established for the type of leases allowed: -a) ~~Dry~~dry leases~~,~~ -~~;~~ b) ~~Wet~~wet leases~~,~~; or -c) ~~Damp~~damp leases. 2) Verify that procedures address as a minimum: -a) ~~Flight~~flight crew training~~,~~ -~~;~~ b) ~~Cabin~~cabin crew training~~,~~ -~~;~~ c) ~~Operational~~operational control~~,~~ -~~;~~ d) ~~Dispatch~~dispatch and flight watch~~,~~; and -e) ~~Crew~~crew members scheduling. 3) Verify procedures address the following approvals as applicable: a) ~~The~~the method for establishing minimum flight altitudes (4.2.7.3);	STD A6 Part I, 4.2.1.8 & App. 5, 5.1 Part III, Section II, 2.2.1.8 & App. 1, 5.1 GM A6 Part I, Att. ~~D~~B, 2.5~~ & 3.3~~ Part III, Att. ~~D~~C, 2.5 Doc 8335 Part V ~~Doc 10059~~		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		b) ~~The~~the method of determining aerodrome operating minima (4.2.8.1); c) ~~Flight~~flight time, flight duty periods and rest periods (4.10.2a); d) EDTO (4.7); e) ~~Aircraft~~aircraft-specific minimum equipment list (MEL) (6.1.3); f) ~~Performance~~performance-based navigation operations (7.2.2 b); g) RVSM operations (7.2.6 b)); h) ~~Procedures~~procedures for electronic navigation data management (7.5.1); i) ~~Training~~training in the transport of dangerous goods (9.3.1~~));~~; j) ~~Pilot~~pilot-in-command area, route and aerodrome qualifications (9.4.3.5); and k) ~~Use~~use of flight simulation training devices. 4) Verify procedures for coordination with airworthiness and licensing for related requirements.			
4.384	Has the State implemented a process for the acceptance or approval of aircraft leasing arrangements, including coordination on airworthiness-related aspects?	1) Verify implementation of the procedures to address as a minimum: ~~-~~a) ~~Flight~~flight crew training ~~-~~; b) ~~Cabin~~cabin crew training ~~-~~; c) ~~Operational~~operational control ~~-~~; d) ~~Dispatch~~dispatch and flight watch ~~-~~; and e) ~~Crew~~crew members scheduling . 2) Verify implementation of procedures for the following as applicable:	STD A6 Part I, 4.2.1.8 & App. 5, 5.1 Part III, Section II, 2.2.1.8 & App. 1, 5.1 GM A6 Part I, Att. ~~D~~B, 2.5 Part III, Att. ~~D~~C, 2.5 Doc 8335 Part V ~~Doc 10059~~		CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		a) The method for establishing minimum flight altitudes (4.2.7.3); b) The method of determining aerodrome operating minima (4.2.8.1); c) Flight time, flight duty periods and rest periods (4.10.2a); d) EDTO (4.7); e) Aircraft-specific minimum equipment list (MEL) (6.1.3); f) Performance-based navigation operations (7.2.2 b); g) RVSM operations (7.2.6 b)); h) Procedures for electronic navigation data management (7.5.1); i) Training in the transport of dangerous goods (9.3.1~~)~~); j) Pilot-in-command area, route and aerodrome qualifications (9.4.3.5); and k) Use of flight simulation training devices . 3) Verify coordination on airworthiness-related aspects.			
4.385	If the State has entered into any agreement under the provisions of Article 83 bis to the Chicago Convention, has the State established procedures for the transfer ~~and acceptance~~ of licensing and operations-related tasks and functions, including notification to ICAO?	1) Verify procedures for evaluating capability of State accepting oversight duties. 2) Verify guidance on the recognition of licences and certificates. 3) Verify that notification to ICAO of transfer agreements is included in the procedure. 4) Verify in the agreement or in another document which of the two parties has the responsibility for the notification to ICAO.	CC Art. 83 bis STD A6 Part I, 6.1.5 & App. 10 Part III, Section II, 4.1.5 & App. ~~8~~6 GM A6 Part I, Att. ~~D~~B, 2.5.2 Part III, Att. ~~D~~C, 2.5.2 Doc ~~10005~~10059		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		Note to the auditor: Verify the process to transfer out, not in.			
4.387	If the State has entered into any agreement under the provisions of Article 83 bis to the Chicago Convention as State of Registry, does the State carry out an assessment of the capability of the State of the Operator accepting the transfer?	1) Verify procedures for evaluating the capability of the State accepting oversight duties to cover provisions in Annexes 1, 2 and 6. 2) Review implementation of related procedures. 3) Sample an agreement, together with its agreement summary, to confirm assessment and notification to ICAO. 4) Review the method in place to ensure that a certified true copy of the agreement summary is on board the aircraft. Note to the auditor: Verify the process to transfer out, not in.	CC Art. 83 bis STD A6 Part I, 6.1.5 & App. 10 Part III, Section II, 4.1.5 & App. ~~8~~6 GM A6 Part I, Att. ~~D~~B, 2.5.2 Part III, Att. ~~D~~C, 2.5.2 Doc 10059		CE-6
4.390	Has the State implemented a process to issue approvals for the transport of dangerous goods by air?	1) Review application forms and their contents. 2) Review the procedure to assess the application forms and the policy and criteria to issue approvals as State of Origin~~, State of Operator~~ or State of ~~Destination, if~~Operator and as applicable (deviation stipulated in the Technical Instructions (TI) or Doc 9284). Note to the auditor: The approval referred to in this PQ is different than dangerous goods specific approval issued to an air operator as a part of operations specifications associated with the AOC.	STD A18 2.1~~ & 2~~.2 GM Doc 9284 (TI) Part 1, ~~C3 &~~ C1, 1.1.2 Doc 9284 Supp (TI SUPP)	Yes	CE-6
4.392	Has the State implemented a process to grant exemptions from the provisions of the Technical Instructions for the safe transport of dangerous goods by air, when the State is	1) Review completed application forms and their contents. 2) Review the procedure to assess the application	STD A18 2.1~~ & 2.2~~.3 GM	Yes	CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	the State of Origin, Operator, Transit, Overflight and Destination?	forms and the policy and criteria to grant exemptions (e.g. extreme urgency, other forms of transport inappropriate, public interest, etc.). 3) Ensure that the procedure includes determination of equivalent level of safety. Notes to the auditor: 1) The legal basis for the granting of exemptions is addressed in LEG PQ 1.027. 2) The establishment of a policy and associated procedures for the granting of exemptions is addressed in LEG PQ 1.028 .	Doc 9284 (TI) & Doc 9284 Supp (TI SUPP) Part S-1, C1, 1.3		
4.401	Does the flight operations inspection organization ensure that the air operator has established: a) policy and procedures to enable cabin crew to discreetly communicate to flight crew in the event of suspicious activity or security breaches in the passenger cabin~~,~~; and b) policy and procedures with respect to flight crew compartment access?	1) Verify State regulations. 2) Review certification process. 3) Review operations inspectors' procedures. 4) Sample operations manual or security manual to confirm implementation.	STD A6 Part I, 13.2		CE-6
4.405	Does the flight operations inspection organization ensure that the air operator has, on board all its aircraft, a checklist of the procedures to be followed: a) ~~I~~in searching for a bomb; b) ~~For~~for inspecting an aircraft for concealed	1) Verify certification process and operations inspectors' procedures. 2) Sample operations manual or security manual to confirm implementation of such guidance.	STD A6 Part I, 13.3 Part III, Section II, 11.1		CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	weapons, explosives and other dangerous devices; and c) ~~Appropriate~~appropriate course of action to be taken in case a bomb or suspicious object is found?				
4.409	Does the State ensure that a security training programme for flight and cabin crew is established by the operator and approved by the State before the AOC is granted?	1) Review the certification process and procedures to ensure that the programme is reviewed in detail. 2) Sample security training programme to confirm that the following are addressed: a) ~~Security~~security of the flight crew compartment; b) ~~Aircraft~~aircraft search procedure checklist; c) ~~Determination~~determination of the seriousness of any occurrences; d) ~~Crew~~crew communication and coordination; e) ~~Appropriate~~appropriate self-defence responses; f) ~~Use~~use, as authorized by the State of the Operator, of non-lethal protective devices assigned to crew members; g) ~~Understanding~~understanding of behaviour of terrorists; h) ~~Live~~live situational training exercises regarding various threat conditions; and i) ~~Post~~post-flight concerns for the crew. 		ii) inspectors' guidance; iii) inspectors' checklists~~,~~; and b) ~~Defined~~defined areas of responsibility. ~~3) Verify operations inspectors' guidance material, procedures and checklists used in conducting applicants' safety risk assessment.~~			
4.435	Does the flight operations inspection organization ensure that the air operator has taken into account, reviewed and implemented all regulations before operations specifications are granted?	1) Verify implementation of the certification process and operations inspectors' procedures. 2) Review the related air operators procedures for: a) RVSM; b) EDTO; c) PBN authorization required (AR); and d) ~~Other.~~ other. 3) Review implementation of documented coordination procedures with airworthiness. 4) Sample issued AOCs/operations specifications.	STD A6 Part I, 4.2.1.2, 4.7 & App~~.AIP~~ 6 Part III, Section II, 2.2.1.2 & App. 3 GM ~~Doc 8335~~A6 Part I, Att. B Part III, Att. C Doc 8335 Part III, C7	Yes	CE-6
4.437	Has the State established approval procedures for the conduct of CAT II and III instrument approaches?	Verify procedures for approval of such operations.	STD A6 Part I, 4.2.8.3 Part III, Section II, 2.2.8.3 GM A6 Part I, Att. ~~D~~B, 2.4 Part III, Att. ~~D~~C, 2.4		CE-5
4.439	Does the flight operations inspection organization carry out an operations evaluation for the conduct of CAT II and III instrument approaches?	1) Verify the process used, including flight crew training. 2) Review evidence to confirm effective implementation.	STD A6 Part I, 4.2.8.3 Part III, Section II, 2.2.8.3		CE-6

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		3) Confirm that CAT II and III instrument approach and landing operations shall not be authorized unless runway visual range (RVR) information is provided.	GM A6 Part I, Att. ~~D~~B, 2.4 Part III, Att. ~~D~~C, 2.4		
4.441	Has the flight operations inspection organization established a formal inspection policy and procedures to be used by operations inspectors for conducting inspections of AOC holders and foreign air operators?	Verify policy/procedures for inclusion of: a) ~~Identification~~identification of inspections to be carried out for AOC holders and foreign air operators; b) ~~Guidelines~~guidelines for scheduling inspections and intervals between each inspection; c) ~~Standardized~~standardized checklists for inspections; and d) ~~Inspection~~inspection/audit process.	STD A6 Part I, 4.2.1.8, 4.2.2.2 & App. 5, ~~4~~5 & 7 Part III, Section II, 2.2.1.8, 2.2.2.2 & App. 1, ~~4~~5 & 7 GM Doc 8335 Part IV Part VI, C5		CE-5
4.443	Is a formal surveillance programme implemented to verify that all AOC holders in the State comply, on a continuing basis, with national regulations, international standards, AOCs and corresponding operations specifications?	1) Verify surveillance programme for previous and current year (planned and completed). 2) Confirm appropriate frequency of inspection (may be based on proven safety indicators or results of previous inspections). 3) Sample inspection records of surveillance of air operators. Note to the auditor: Inspections include scheduled, unscheduled and unannounced inspections.	STD A6 Part I, 4.2.1.8 & App. 5, ~~4~~5 & 7 Part III, Section II, 2.2.1.8 & App. 1, ~~4~~5 & 7 GM Doc 8335 Part IV & Part VI, C5 Doc 9734 Part A, C3	Yes	CE-7

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
4.445	Does the established surveillance programme monitor the AOC holders' financial condition and any negative trends?	1) Verify surveillance programme. 2) Verify monitoring procedures. 3) Sample inspections records.	STD A6 Part I, 4.2.1.8~~, 4.2.2.2~~ & App. 5, ~~4,~~ 5~~.1~~ & 7 Part III, Section II, 2.2.1.8~~, 2.2.2.2~~ & App. 1, 45 & 7 GM Doc 8335 Part IV, C2 Doc 9734 Part A, C3		CE-7
4.447	Does the surveillance policy and programme of the CAA include the necessary processes and procedures for coordination among its different departments or directorates (i.e. transportation, finances, legal, operations, personnel licensing, airworthiness, etc.)?	1) Verify that surveillance policy provides for coordination. 2) Review operations inspectors' procedures. 3) Verify surveillance programme records to confirm that all relevant aspects from other departments are reviewed (like ramp inspections).	STD A6 Part I, 4.2.1.8 & App. 5, 45 & 7 Part III, Section II, 2.2.1.8 & App. 1, 45 & 7 GM Doc 8335 Part IV, C2 Doc 9734 Part A, C3		CE-7
4.448	Is a formal surveillance programme implemented to verify that foreign air operators comply, on a continuing basis, with international standards, AOCs and corresponding operations specifications?	1) Verify surveillance programme for previous and current year (planned and completed). 2) Confirm appropriate frequency of inspection (may be based on proven safety indicators or results of previous inspections). 3) Sample inspection records of surveillance of foreign air operators.	STD A6 Part I, 4.2.1.8, 4.2.2 & App. 5, 45 & 7 Part III, Section II, 2.2.1.8, 2.2.2~~.2~~; App. 1, 45 & 7 GM Doc 8335 Part ~~IV & Part~~ VI, C5		CE-7

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		Note to the auditor: Inspections include scheduled, unscheduled and unannounced inspections.	Doc 9734 Part A, C3		
4.449	What actions are taken by the CAA if the deficiencies identified during the conduct of inspections are not rectified in a timely manner?	1) Verify operations inspectors' procedures and enforcement procedures. 2) Verify examples of graduated actions taken, such as: a) imposition of fines~~,~~; b) restrictions/limitations~~,~~; and c) suspension/revocation of certificate. 3) Review the system for AOC holders of the State and foreign air operators.	STD A6 Part I, 4.2.1.8 & App. 5, 5.2 & 8 Part III, Section II, 2.2.1.8 & App. 1, 5.2 & 8 GM Doc 8335 Part IV, C3 Doc 9734 Part A, C3		CE-8
4.450	Does the surveillance programme include ramp inspections of aircraft operated by AOC holders and foreign air operators, based on risk?	Review evidence on policy on items to be checked during ramp inspections, taking into account both high-risk items and all other items over a series of inspections, such as: a) ~~Flight~~flight deck – general (e.g. condition, emergency exit, equipment); b) ~~Flight~~flight deck — documentation (e.g. manuals, checklists, route guide, MEL, documents to be carried on board & flight deck safety equipment); c) ~~Cabin~~cabin/Safety; d) ~~Aircraft~~aircraft external condition, e.g. previous structural repairs; obvious damage; leakage (e.g. apparent corrosion);	STD A6 Part I, 4.2.2.2 & App. 5, 7 Part III, Section II, 2.2.2.2 & App. 1, 7 GM Doc ~~9760~~ ~~Doc~~ 8335 Part IV, Att.	Yes	CE-7

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		e) ~~Cargo~~cargo (condition of cargo compartment and containers; dangerous goods; safety of cargo on board); and f) ~~General~~general (additional remarks; refuelling; language for communication). Note to the auditor: Inspections include scheduled, unscheduled and unannounced inspections.			
4.451	Has the flight operations inspection organization implemented a documented process or a system to track the deficiencies identified and to accept/validate the corrective actions taken by the air operators?	1) Sample inspection reports and correspondence with the air operator. 2) Verify the system to track the deficiencies within the CAA. 3) Confirm that deficiencies are rectified in a timely manner.	STD A6 Part I, 4.2.1.8 & App. 5, 5.2 & 8 Part III, Section II, 2.2.1.8~~;~~ & App. 1, 5.2 & 8 GM Doc 8335 Part IV, C3 Doc 9734 Part A, C3		CE-8
4.453	Does the flight operations inspection organization maintain a system which monitors and records progress, including actions taken by the air operator in resolving identified safety issues, to make it possible to track past deficiencies and regulatory non-compliance?	1) Review operations inspectors' procedures. 2) Review air operator's files. 3) Verify monitoring system to ensure that the CAA takes into account past deficiencies when establishing its surveillance programme and performing risk assessment.	STD A6 Part I, 4.2.1.8 & App. 5, 5.2 & 8 Part III, Section II, 2.2.1.8 & App. 1, 5.2 & 8 GM Doc 8335 Part IV, C3 Doc 9734		CE-8

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
			Part A, C3		
4.460	Does the flight operations inspection organization ensure that the air operator has established a procedure for the crew to evaluate a traveller with a suspected communicable disease, based on the presence of a fever and certain other signs or symptoms?	1) Review operations inspectors' procedures to ensure that they check air operators' related procedures. 2) Confirm effective implementation by verifying that an air operator's operations manual or cabin crew manual contains related procedures. 3) Check that the procedure includes the transmission, as required, of a General Declaration form to the State authorities.	STD A6 Part I, 6.2 A9 8.15, Note 1; 2.11 & App. 1 GM A6 Part I, Att. A		CE-6
4.462	Does the flight operations inspection organization ensure that the air operator has established procedures for the pilot-in-command to report promptly to air traffic control (ATC) a suspected communicable disease, with transmission of the following information: a) ~~Aircraft~~aircraft identification; b) ~~Departure~~departure aerodrome; c) ~~Destination~~destination aerodrome; d) ~~Estimated~~estimated time of arrival; e) ~~Number~~number of persons on board; f) ~~Number~~number of suspected case(s) on board; and g) ~~Nature~~nature of the public health risk, if known?	1) Review operations inspectors' procedures to ensure that they check air operators' related procedures. 2) Confirm effective implementation by verifying that an air operator's operations manual has procedures for reporting suspected communicable diseases, including transmission of the following information: a) ~~Aircraft~~aircraft identification; b) ~~Departure~~departure aerodrome; c) ~~Destination~~destination aerodrome; d) ~~Estimated~~estimated time of arrival; e) ~~Number~~number of persons on board; f) ~~Number~~number of suspected case(s) on board; and g) ~~Nature~~nature of the public health risk, if known.	STD A9 8.15 PANS Doc 4444 (ATM) 16.6.1		CE-6
4.901	Has the State promulgated specific operating regulations to require operators of aeroplanes or helicopters authorized to conduct	Verify that the regulations: 1) require air operators to implement an SMS that is acceptable to the State;	CC Art 37 STD		CE-2

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
	international commercial air transport (air operators) to implement a safety management system (SMS)?	2) require the SMS to be established in accordance with the SMS framework elements contained in Appendix 2 to Annex 19; and 3) comply with the latest amendments to Annex 19. Note to the auditor: The SMS framework components and elements in Appendix 2 to Annex 19 are: 1. Safety policy and objectives: 1.1 Management commitment; 1.2 Safety accountability and responsibilities; 1.3 Appointment of key safety personnel; 1.4 Coordination of emergency response planning; 1.5 SMS documentation; 2. Safety risk management: 2.1 Hazard identification; 2.2 Safety risk assessment and mitigation; 3. Safety assurance: 3.1 Safety performance measurement and monitoring; 3.2 The management of change; 3.3 Continuous improvement of the SMS; 4. Safety promotion: 4.1 Training and education; 4.2 Safety communication.	A19 3.3.2 & 4.1 App 1, 2. GM Doc 9734, Part A 3.2 Doc 9859 1.3.5 & 9.7.4		
4.905	Does the State ensure that the personnel responsible for the acceptance and continuous surveillance of air operators SMS are qualified to perform their functions and responsibilities?	Verify that: 1) the State has identified competency requirements for personnel responsible for the acceptance and continuous surveillance of an SMS; 2) the content of the training programme addresses the SMS framework elements contained in Appendix 2 to Annex 19. 3) the training also includes (but is not limited to) the following:	STD A19 3.2.4 App 1, 4.1, 4.2 App. 2 GM Doc 9734, Part A 3.4		CE-4

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		a) evaluation and acceptance of an air operator' SMS; b) evaluation and acceptance of an air operator's safety performance indicators (SPIs); c) continuous surveillance of the air operator's SMS in a safety management environment; d) hazard identification and risk management processes and methodologies; e) protection of safety data, safety information and related sources; f) enforcement under the framework of SMS; and g) soft skills (e.g. effective communication skills, negotiation skills, conflict resolution, etc.); 4) a training plan has been implemented; 5) initial, OJT and recurrent training, as applicable, with specified-time periods are included; and 6) training records are systematically retained. Note to the auditor: The framework components and elements in Appendix 2 to Annex 19 are listed in PQ 4.901.	Doc 9859 8.3.7		
4.909	Has the State provided guidance material to the industry on the establishment and management of an SMS?	Verify that the guidance material: 1) includes the processes for the establishment and management of an SMS; 2) addresses the SMS framework elements contained in Appendix 2 to Annex 19; 3) is updated and made accessible to air operators; and 4) corresponds with activities conducted by the air operators. Note to the auditor: The framework components and elements in Appendix 2 to Annex 19 are listed in PQ 4.901.	STD A19 3.2.5 App 1, 4.2 App 2 GM Doc 9734, Part A 3.5 Doc 9859 8.3.8		CE-5
4.913	Has the State established procedures for the acceptance of air operators SMS?	Verify that the established procedures: 1) describe the processes for the acceptance of an	STD A19		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		SMS, where the SMS manual at least includes: a) safety policy and safety objectives; b) reference to any applicable regulatory SMS requirements; c) system description; d) safety accountabilities and key safety personnel; e) voluntary and mandatory safety reporting system processes and procedures; f) hazard identification and safety risk assessment processes and procedures; g) safety investigation procedures; h) procedures for establishing and monitoring safety performance indicators; i) SMS training processes and procedures and communication; j) safety communication processes and procedures; k) internal audit procedures; l) management of change procedures; m) SMS documentation management procedures; and n) where applicable, coordination of emergency response planning. 2) address the SMS framework elements contained in Appendix 2; to Annex 19; and 3) are updated and made accessible to personnel responsible for the acceptance of an SMS. Note to the auditor: The framework components and elements in Appendix 2 to Annex 19, are listed in PQ 4.901.	3.2.5 App 1, 5.1 GM Doc 9734, Part A 3.5 Doc 9859 8.3.8 & 9.3.8.3		
4.917	Has the State established procedures for the continuous surveillance of air operators SMS?	Verify that the established procedures: 1) describe the processes for the continuous surveillance of an SMS; and 2) are updated and made accessible to personnel responsible for the surveillance of an SMS.	STD A19 3.2.5 App 1, 5.1 GM		CE-5

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
			Doc 9734, Part A 3.5 Doc 9859 8.3.8		
4.921	Has the State accepted the SMS of individual air operators?	Review evidence of implemented procedures for accepting an SMS including the maintenance of SMS operational records.	STD A19 4.1 App 1, 6 App 2 GM Doc 9734, Part A 3.6 Doc 9859 8.4.6 & 8.4.7		CE-6
4.925	Does the State ensure that the air operators identify hazards, assess identified safety risks, and mitigate them appropriately?	Verify that the State ensures the air operators: 1) maintain a process to: a) identify hazards associated with their aviation products or services; b) assess safety risks; and c) mitigate safety risks; and 2) actively identify hazards, assess safety risks and mitigate them appropriately. Note to the auditor: This verification needs to be reviewed during the industry visit.	STD A19 App2, 2.1 & 2.2 GM Doc 9859 9.4.4 & 9.4.6		CE-7
4.929	Does the State ensure that safety performance indicators and targets established by air operators are acceptable to the State?	1) Review the State's mechanism for accepting individual air operators' safety performance indicators (SPIs) and targets (when applicable) to verify that proposed SPIs and respective targets (as applicable), are developed in a manner that supports the effort to meet their safety objectives, and are formulated in a manner to ensure that they are specific, measurable, achievable, relevant and timebound.	STD A 19 App 2, 3.1 RP A19 3.3.2.2 GM Doc 9859		CE-6

This PQ has been temporarily removed. It will be amended due to a change in the Standard. Self-assessment not required.

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		2) Verify that the State ensures that the air operators' proposed SPIs are reviewed and accepted as part of the SMS acceptance. Notes to the auditor: 1) SPIs acceptance may also be done later in the implementation process. 2) This verification needs to be reviewed during the industry visit.	4.3.3 & 8.4.7.		
4.933	Does the State ensure the air operators monitor their safety performance?	Verify that the State has established and implemented a mechanism to ensure that the air operators periodically review its safety performance including the means to: 1) validate the effectiveness of safety risks controls; 2) validate the identification of changes that may affect the level of safety risks associated with their aviation products or services; and 3) validate the identification and management of the safety risks that may arise from those changes.	STD A 19 App2, 3.1; 3.2 & 3.3 GM Doc 9859 8.5.4, 9.5.4, 9.5.5 & 9.5.6		CE-7
4.937	Does the State ensure that the air operators personnel involved in SMS are qualified to perform their functions and responsibilities?	1) Verify that the State has established and implemented a mechanism to validate that the air operators' personnel involved in SMS are qualified to perform their functions and responsibilities; 2) Sample surveillance activities records. Notes to the auditor: 1) The scope of the safety training programme should be appropriate to each individual's involvement in the SMS. 2) Review the training records of the air operators' personnel during the industry visit.	STD A19 App 2, 4.1 GM Doc 9859 9.6.4		CE-7
4.941	Does the State ensure that the air operators continually promote safety?	Verify that the State ensures the air operators: 1) develop and maintain a formal mean for safety communication that includes: a) ensuring personnel are aware of the SMS to a	STD A19 App 2, 4.2		CE-7

PQ No.	Protocol Question	Guidance for Review of Evidence	ICAO References	PPQ	CE
		degree commensurate with their positions; b) conveying safety-critical information; c) explaining why particular actions are taken to improve safety; and d) explaining why safety procedures are introduced or changed; 2) have considered communicating to external organizations any of their safety related information.	GM Doc 9859 9.6.5		

— END —
